Dear Ms. Chiocchio:
A Tree Inventory was completed at the subject site on Oct. 21, 2019 to determine the size and quantity of existing trees that will need to be removed for the installation of the proposed facility. The proposed site has suitable access, but clearing and earthwork will be required to improve the access driveway entrance and to construct the compound area. Installation of the proposed compound area and access driveway improvements will require the removal of 7 trees.
