Re: Proposed Gravel Pit Solar Project – Response to Town Comments

Dear Mr. Bowsza:

I am writing to you again on behalf of my client, Gravel Pit Solar (GPS). As you will recall, on May 22, 2020, Gravel Pit Solar provided the Town of East Windsor a copy of a draft of its application to the Connecticut Siting Council for this project. The Town clearly spent a great deal of time and thought in developing comments regarding the project's submittal, and GPS greatly appreciates that effort.

GPS has had the time to analyze the Town's comments and to make changes to its application in accordance with those comments. I am enclosing both GPS's response to the Town's comments as well as a revised Visibility Assessment, which incorporates the Town's comments.

Thank you again for your suggestions for how GPS could improve this project. We trust that these changes will address the concerns the Town highlighted in its comments. Should the Town have any questions, please feel free to contact me or Aaron Svedlow at GPS directly. Thank you again for your comments and for your consideration of this project.

Sincerely,

Lee D. Hoffman
