Re: DOCKET NO. 492 – Gravel Pit Solar application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a 120-megawatt-AC solar photovoltaic electric generating facility on eight parcels generally located to the east and west of the Amtrak and Connecticut Rail Line, south of Apothecaries Hall Road and north of the South Windsor town boundary in East Windsor, Connecticut and associated electrical interconnection.

Dear Ms. Fontaine:

As you know, my client, Gravel Pit Solar submitted an application for a Certificate of Environmental Compatibility and Public Need (“Certificate”) for this project with the Connecticut Siting Council (“Council”) on July 31, 2020. The application requests the Council’s approval of the location and construction of a solar photovoltaic project in East Windsor, Connecticut.

As you are aware, my client’s payment of the applicable fees was not included with the application submittal. Enclosed with this letter you will find a check in the amount of twenty-five thousand, two hundred and fifty dollars (\$25,250.00) to cover the applicable fees.

If you have any questions concerning this submittal, please contact me at your convenience.

Sincerely,

Lee D. Hoffman

Enclosure
