AFFIDAVIT OF PUBLICATION

STATE OF CONNECTICUT
COUNTY OF FAIRFIELD

LEGAL NOTICE

Notice is hereby given, pursuant to Section 16-50(b) of the Connecticut General Statutes and Regulations pertaining thereto, of an Application to be submitted to the Connecticut Siting Council ("Council") on or about August 26, 2020, by Global Signal Acquisitions IV LLC and Crown Castle Towers 06-02 LLC ("Crown"). The Application proposes the installation of a wireless telecommunications tower and related facility in the central portion of an approximately 17.37-acre parcel off Lakeview Street in East Hampton, Connecticut ("Property"). Crown intends to relocate its existing tower and related facility from 94 East High Street to the Property. Crown proposes to construct a 250-foot monopole tower within a 75' x 75' fenced compound. Access to the facility will extend from East High Street along a new gravel driveway to the cell site. Antennas will be installed at various levels on the tower and equipment and backup power supply will be located at the base of the tower. The location and other features of the proposed facility are subject to change under provisions of Connecticut General Statutes § 16-50g et. seq.

On the day of the Siting Council public hearing on this proposal, Crown may be asked to fly a balloon at the height of the proposed tower described above. Interested parties and residents of the Town of East Hampton are invited to review the Application during normal business hours after August 26, 2020, at any of the following offices:

Connecticut Siting Council
10 Franklin Square
New Britain, CT 08051
Crown Castle
3 Corporate Park Drive Suite 101

Did you know?

Apply to drive and excess weight a vehicle can dramatically reduce fuel efficiency. According to U.S. Department of Energy, aggressive driving that includes rapid deceleration and braking wastes gas, lowering gas mileage by 24 percent on highways and 5 percent when driving around town. Doing all right speed can also negatively affect gas mileage, which means an increase in trips as speeds above 50 miles per hour, with each five miles per hour more than 30 mph can be paying an extra 30.75 per gallon for gas. Drivers who treat their vehicles as cargo storage courts also could be wasting fuel and money, as the DOE notes that an extra 100 pounds in a vehicle could reduce its miles per gallon by 2 percent.

On the day of the Siting Council public hearing on this proposal, Crown may be asked to fly a balloon at the height of the proposed tower described above. Interested parties and residents of the Town of East Hampton are invited to review the Application during normal business hours after August 20, 2020, at any of the following offices:

Did you know...

According to the National Sleep Foundation, certain lifestyle habits may help people fall asleep faster and sleep more soundly which reduces any sleep apnea a person's ability to enjoy a restful night's sleep. In lieu of wine, bread, refined grains and sugar-rich baked goods, all of which can reduce melatonin levels, the NSF recommends whole grains. The buildup of serotonin in the brain during periods of wakefulness contributes to the onset of sleep later in the day. It is serotonin levels in the brain that are elevated, then people may experience difficulty falling asleep. The NSF also recommends almonds and walnuts, which contain melatonin, a hormone that helps to regulate the sleep/wake cycles. In addition, foods that are high in tryptophan, such as turkey, chicken and turkey, may increase the production of serotonin, potentially contributing to a restful night's sleep.
