RE: Docket No. 495 – Cellco Partnership d/b/a Verizon Wireless application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at 5151 Park Avenue, Fairfield, Connecticut.

Dear Distinguished Members of the Connecticut Siting Council and Executive Director Bachman,

Thank you for the opportunity to provide comments regarding Docket No. 495.

Due to this proposed project's proximity to airport infrastructure, we believe it will be necessary for the proponents to file Form FAA 7460, Notice of Proposed Construction or Alteration, with the Federal Aviation Administration. This is a necessary step so the FAA can determine if the project will result in a hazard to air navigation. While the project proponents appear to have completed some type of preliminary review, we respectfully request that the proponents initiate the formal 7460 process to ensure the safety of aviation in the area.

Please feel free to contact me directly at 860-292-2054 if you have any questions or concerns.

Sincerely,

A handwritten signature in black ink that reads 'Kevin A. Dillon'.

Kevin A. Dillon, A.A.E.
Executive Director
Connecticut Airport Authority
