Subject: Proposed Wireless Telecommunications Facility, Revised
810 Prospect Hill Road
Windsor, CT
Phoenix Partnership, LLC

Dear Mr. Karmazinas:

The State Historic Preservation Office is in receipt of the revised proposal for the above-referenced project, submitted for review and comment pursuant to the National Historic Preservation Act and in accordance with Federal Communications Commission regulations.

The property located at 810 Prospect Hill Road is located within a 0.5 mile radius of resources that are potentially eligible for listing in the National Register of Historic Places, including a collection of tobacco sheds located along Old Iron Ore Road, which were inventoried in the *Historic Barns of Connecticut* survey in 2011, available digitally.

The proposed undertaking includes installation of a 135 foot tall monopole with nine panel antennas and one dish antenna, located within a 50 foot by 50 foot chain-link equipment compound, located northwest portion of the subject parcel. A 15 foot-wide access easement would be through an existing parking lot to Prospect Hill Road. The antennas are proposed to be mounted at a maximum height of 130 feet above ground level (AGL). As the ground has been substantially disturbed in the past, it is unlikely for the site to contain intact archaeological deposits.

The SHPO concurs with All Points' determination that the proposed undertaking will have no adverse effect to sites listed on or eligible for listing on the National Register of Historic Places, with the following conditions:
