Windsor, CT 06095

**Re: Proposed Development of a Wireless Telecommunications Facility at 800
Prospect Hill Road, Windsor, Connecticut**

Dear Mayor Trinks:

This office represents Tarpon Towers II, LLC (“Tarpon”). Tarpon anticipates filing an application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance and operation of a wireless telecommunications facility at 800 Prospect Hill Road (“Facility”). In accordance with General Statutes § 16-50(f), I have enclosed a technical report concerning the proposed Facility. The technical report includes information concerning the public need for the Facility, the site selection process and the potential environmental effects of the proposed Facility.

The Connecticut Siting Council (“Council”) has exclusive jurisdiction over the siting of telecommunications facilities. General Statutes § 16-50x. Section 16-50(f)(1), however, requires an applicant to consult with the municipality in which the proposed facility would be located. Accordingly, the Town of Windsor (“Town”) may conduct a public information meeting to provide recommendations or comments to Tarpon concerning the proposed Facility.

If the Town would like to hold a public information meeting, then the Town must do so within sixty (60) days of its receipt of this filing. General Statutes § 16-50(f)(2). Should the Town elect to conduct such a meeting, I respectfully request advance notice so Tarpon may satisfy any notice requirements required by statute.

If the Town would like Tarpon to consider any alternative sites, which may include municipal parcels, then please provide those suggested alternatives within thirty (30) days of the receipt of this filing. Tarpon would include its evaluation of any such alternative sites in its submission to the Council. General Statutes § 16-50(f)(3).

I would like to meet with you or your designee to review Tarpon’s proposal and will contact you shortly to set up an appointment at your convenience.

The Honorable Mayor Donald S. Trinks
