April 26, 2021

TO: Council Members

FROM: Melanie A. Bachman, Executive Director *MAB*

RE: **DOCKET NO. 497**– Burlington Solar One, LLC application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance and operation of a 3.5-megawatt AC solar photovoltaic electric generating facility located at Lot 33, Prospect Street, Burlington, Connecticut and associated electrical interconnection.

Pursuant to Section 16-50n(f) of the Connecticut General Statutes and Section 16-50j-26 of the Regulations of Connecticut State Agencies, at the conclusion of the evidentiary hearing session held on April 13, 2021, the Connecticut Siting Council (Council) closed the evidentiary record for the above-referenced application, and established May 13, 2021 as the deadline for the submission of briefs and proposed findings of fact.

Also at the conclusion of the evidentiary hearing held on April 13, 2021, the Council announced that no new information, no new evidence, no argument and no reply briefs will be considered by the Council without permission.

On April 23, 2021, the Council received correspondence from Burlington Solar One, LLC requesting to revise its response to Council Interrogatory No. 38, dated March 16, 2021, related to Toxicity Characteristic Leaching Procedure testing of the proposed solar modules.

This matter will be placed on the Council's May 6, 2021 meeting agenda for Council consideration of whether or not to reopen the evidentiary record to allow for submission of the new exhibit; and if the evidentiary record is reopened, whether or not a hearing be held for additional cross examination on the new exhibit.
