RE: Docket No. 192B – Towantic Energy, LLC Motion to Reopen and Modify the June 23, 1999 Certificate of Environmental Compatibility and Public Need Based on Changed Conditions Pursuant to Connecticut General Statutes §4-181a(b) for the Construction, Maintenance and Operation of a 785 MW Dual-Fuel Combined Cycle Electric Generating Facility Located North of the Prokop Road and Towantic Hill Road Intersection in the Town of Oxford, Connecticut – Update on Witness

Dear Chairman Stein:

Bruce A. Egan, Sc.D., CCM, the author of the report entitled “Review of Plume Rise and Meteorological Issue regarding the proposed CPV Towantic Energy Center” that is a part of the record in this Docket is experiencing health issues that make it impossible for him to attend the hearing session to be held on March 12, 2015 to be cross-examined on his testimony and report. We are hopeful that Dr. Egan’s health will have improved so that he will be physically able to attend the next hearing session.

I note that the applicant made two similar requests relative to the testimony of Dean Gustafson and I hope Dr. Egan would be afforded the same accommodations.

Sincerely,

A handwritten signature in black ink, appearing to be 'Marian R. Larkin', written over a large, loopy oval scribble.
