RE: **DOCKET NO. 370** - The Connecticut Light and Power Company Certificate of Environmental Compatibility and Public Need for the Connecticut portion of the Greater Springfield Reliability Project that traverses the municipalities of Bloomfield, East Granby and Suffield, Connecticut. **Request to temporarily change hours of construction at North Bloomfield Substation.**

Dear Mr. Carberry:

In response to your email of November 7, 2012, the Connecticut Siting Council (Council) acknowledges The Connecticut Light and Power Company's postponement of the extended work hours scheduled and approved by the Council to commence on October 29, 30, and 31, 2012 due to your company's priority to respond to the effects of Hurricane Sandy. Furthermore, the Council approves the extended work hours of 14 hours per day between 7:00 a.m. and 9:00 p.m. on November 26, 27, and 28, 2012 to modify the existing AC station service power equipment within the existing control house. This work will require an emergency generator to be located next to the control house and operated 24 hours per day to temporarily supply critical loads, as required by CONVEX. This approval is contingent upon a response of no objection from the Town of Bloomfield.

Any changes to the D&M Plan require advance Council notification and approval. Please be advised that deviations from this plan are enforceable under the provisions of the Connecticut General Statutes § 16-50u.

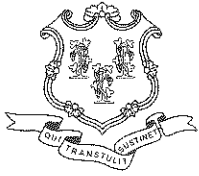

Thank you for your attention and cooperation.

Very truly yours,

Linda Roberts
Executive Director
