Re: Docket No. 370 - Application of The Connecticut Light & Power Company for the Connecticut Valley Electric Transmission Reliability Projects; NRG Energy, Inc. Application for a Combined Cycle Generating Plant in Meriden, Connecticut

Dear Mr. Phelps,

The Connecticut Energy Advisory Board ("CEAB") is in receipt of the Connecticut Siting Council's ("Siting Council") request, dated September 1, 2009, that parties and intervenors notify the Siting Council of their intent to participate and conduct cross-examination at the joint hearings with the Massachusetts Energy Facilities Siting Board in the above-referenced docket. The CEAB intends to participate at the joint hearings. The CEAB does not anticipate the need to conduct cross-examination, but reserves the right to do so. Thank you for your time and consideration.

Respectfully submitted,

CONNECTICUT ENERGY ADVISORY
BOARD
