Re: **Docket No. 379 - SBA Towers II, LLC Application for a Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance and Operation of a Telecommunications Facility Located at 12 Burr Road, Bloomfield, Connecticut**

Dear Mr. Phelps:

In response to your September 18, 2009 memorandum, Cellco Partnership d/b/a Verizon Wireless ("Cellco") offers the following revisions¹ with respect to errors or inconsistencies in the Connecticut Siting Council's Draft Findings of Fact dated September 17, 2009 ("Draft Findings") in connection with the above-referenced matter:

Finding of Fact 47: Verizon would install 15 antennas (five per sector) at a centerline height of 117 feet agl. It would utilize a 12-foot by 30-foot equipment shelter for its ground equipment. Verizon would prefer to install its antennas on a standard platform but could utilize a low profile platform or T-arm mounts. (SBA 1, p. 9; Verizon ¶ 2, Responses 9 & 13; Tr. 1, pp. 66-67-69)

Cellco appreciates the opportunity to review and offer comments on the Draft Findings.
