RE: **DOCKET NO. 380** - Bay Communications, LLC application for a Certificate of Environmental Compatibility and Public Need for the construction, maintenance and operation of a wireless telecommunications facility at 170 Southeast Road, New Hartford, Connecticut.

Dear Attorney Baldwin:

As you are aware, the Council previously approved a 160-foot tower at this site under Docket 314 on July 27, 2006 and the Certificate expired in September 2008. The record in the Docket 314 proceeding contained responses to Council's interrogatories, dated May 15, 2006 that established Verizon's need for a height of 160 feet at this location. Please update the information contained within the May 15, 2006 submittal, as necessary, to demonstrate Verizon's continued need for this facility.

The Connecticut Siting Council (Council) requests your response no later than May 8, 2009. To help expedite the Council's review, please file individual responses as soon as they are available.

Please forward an original and 15 copies to this office. In accordance with the State Solid Waste Management Plan, the Council is requesting that all filings be submitted on recyclable paper, primarily regular weight white office paper. Please avoid using heavy stock paper, colored paper, and metal or plastic binders and separators. Fewer copies of bulk material may be provided as appropriate.

Yours very truly,

S. Derek Phelps
Executive Director
