Re: **Docket No. 382 – Cellco Partnership d/b/a Verizon Wireless Application For A Certificate Of Environmental Compatibility And Public Need For The Construction, Maintenance And Operation Of A Wireless Telecommunications Facility Off Lane Street, Shelton, Connecticut**

Dear Chairman Stein and Members of the Council:

On December 3, 2009, the Connecticut Siting Council (“Council”) approved an application by Cellco Partnership d/b/a Verizon Wireless (“Cellco”) to construct a wireless telecommunications facility on property owned by Brownson Country Club, off Lane Street in Shelton, Connecticut. The current deadline for construction and activation of the facility is December 7, 2012. As stated in my June 13, 2012 letter to Linda Roberts, construction of this facility commenced on or about June 27, 2012. My client expects to complete construction of the facility by the end of this calendar year but does not expect to activate the cell site until the first quarter of 2013. Cellco, therefore, requests that the Council grant a six (6) month extension to the Docket No. 382 approval to complete work and activate the approved facility until June 7, 2013.

We respectfully request that this matter be placed on the Council’s next available meeting agenda for consideration. If you have any questions regarding this request please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin
