**RE: Verizon Wireless Tower at Brownson Country Club
Lane Street, Shelton, CT**

Dear Attorney Baldwin:

Please be advise that the City of Shelton recommends the construction of a telecommunication tower disguised as a pine tree for the proposed Verizon Wireless Tower located off of Lane Street on the Brownson Country Club property.

It is hopeful that the manufacturer of this pine tree tower has improved the overall design and appearance unlike the older and unsightly pine tree structures located throughout the northeast.

Sincerely yours,

Mark A. Lauretti
Mayor
