OF OLD LYME, CONNECTICUT

DOCKET NO. 393

Date: January 28, 2010

INTERROGATORY RESPONSES TO TOWN OF OLD LYME FROM APPLICANT T-MOBILE NORTHEAST, LLC

The Applicant, T-Mobile Northeast, LLC ("T-Mobile"), submits the following responses to the first set of Pre-Hearing Interrogatories propounded by the Town of Old Lyme in connection with the above-captioned Application.

- 1. Using the same coverage thresholds as those used in the propagation maps included in the applications for docket 391, 392 and 393, please produce the following propagation maps at a sufficient scale to show the coverage areas for all three of the sites proposed in dockets 391, 392 and 393:
 - a) T-Mobile's existing coverage.
 - b) T-Mobile's existing coverage plus the proposed coverage for the site proposed in docket 391.
 - T-Mobile's existing coverage plus the proposed coverage for the site proposed in docket 392.
 - d) T-Mobile's existing coverage plus the proposed coverage for the site proposed in docket 393.
 - e) T-Mobile's existing coverage plus the proposed coverage for the sites proposed in docket 391, 392 and 393.

A1 Responsive propagation plots are attached hereto.

- 2. Please produce a propagation map, in the same scale used in response to interrogatory #1, showing:
 - a) T-Mobile's existing coverage plus proposed coverage from the site proposed on property owned by the Town of Old Lane at 14 Cross Lane (the "Town Site") at an antenna centerline at 157'.
 - b) T-Mobile's existing coverage plus proposed coverage from the Town Site at an antenna centerline at 147'.
 - c) T-Mobile's existing coverage plus proposed coverage from the Town Site at an antenna centerline at 137'.
- As the Town Site was rejected by a public vote held on January 25, 2010, the Town has agreed that interrogatories regarding the Town Site no longer require a response.
- 3. Please quantify the total coverage footprint, in square feet, of the following:
 - a) T-Mobile's proposed coverage from the site proposed in docket 391.
 - 1.50 square miles / 41,817,600 square feet

b) T-Mobile's proposed coverage from the site proposed in docket 392.

0.96 square miles / 26,763,264

c) T-Mobile's proposed coverage from the site proposed in docket 393.

3.54 square miles / 98,689,536

d) T-Mobile's proposed coverage from the Town Site at an antenna centerline of 157'.

See response to interrogatory 2 above.

e) T-Mobile's proposed coverage from the Town Site at an antenna centerline of 147'.

See response to interrogatory 2 above.

f) T-Mobile's proposed coverage from the Town Site at an antenna centerline of 137'.

See response to interrogatory 2 above.

- 4. In regards to the site proposed in Docket 392, please comment on the viability of other licensed wireless carriers utilizing the proposed facility for tower sharing, since the tower is proposed at only 80 feet and the equipment compound is proposed at only 20 feet by 40 feet.
- A4 T-Mobile can not comment as to whether this site is a viable option for other carriers to utilize from a coverage stand point. Each carrier has its own coverage gaps and solutions based upon their existing on-air coverage footprints, frequency constraints and design criteria. T-Mobile is not in a position to comment on the state of other wireless carriers networks or their current search areas.

Respectfully submitted,

T-MOBILE NORTHEAST, LLC

Julie D. Kohler, Esg.
