Melanie Bachman
Acting Executive Director
Connecticut Siting Council
Ten Franklin Square
New Britain, CT 06051

RE: DOCKET NO. 391 – Bay Communications II, LLC Certificate of Environmental Compatibility and Public Need for the construction, maintenance and operation of a telecommunications facility located at 232 Shore Road, Old Lyme, Connecticut. Request for Extension of Time.

Dear Melanie:

On behalf of Bay Communications II, LLC (“Bay Communications”), we request that the Connecticut Siting Council (the “Council”) grant an extension of construction time for the referenced facility. Bay Communications commenced site construction activities in October 2013, and has substantially completed the facility, including the tower, equipment compound, and access way. Bay Communications is currently waiting for CL&P to complete its utility pole installation and to energize the site, which is expected to occur on or about October 1, 2014.

On May 17, 2013, the Council extended the construction time until October 22, 2014. Bay Communications is seeking an extension of time in the event that CL&P is unable to energize the site in time to allow the facility to be operational by the current construction deadline. Specifically, Bay Communications respectfully requests a three (3) month extension of time until January 22, 2015, in which to comply with paragraph 8 of the Council’s Decision and Order.

If you have any questions, please do not hesitate to contact me.

Very truly yours,

BROWN RUDNICK LLP
