Re: Docket No. 394
AT&T
Application for a Certificate of Environmental Compatibility and Public Need
933 Stillwater Pond Road, Torrington, Connecticut

Dear Chairman Caruso and Members of the Council:

This letter is submitted on behalf of AT&T in connection with the above referenced Application that is the subject of Docket No. 394.

As the Council is aware, AT&T requested an adjournment of the January 26th hearing for this Docket in light of additional information it received just prior to the hearing regarding a potential alternative that it had previously reviewed. AT&T requested the adjournment to fully evaluate this additional information for relevancy to its proposal and to ensure that all pertinent information was provided to the Siting Council prior to a hearing.

At this time, based on its evaluation of this additional information, AT&T respectfully withdraws its Application for a Certificate of Environmental Compatibility and Public Need for the above referenced facility without prejudice to resubmit its Application.

We thank the Siting Council and Staff for its time and efforts in consideration of AT&T's Application. We apologize for any inconvenience.

Very truly yours,

Lucia Chiochio
