NEW CINGULAR WIRELESS PCS, LLC ("AT&T")
RESPONSES TO THE TOWN OF HARTLAND'S INQUIRY

In response to the Town of Hartland's January 5, 2011 inquiry regarding the existing surrounding wireless telecommunications sites, AT&T submits the attached propagation map. The attached propagation map depicts coverage from existing wireless facilities with hypothetical antenna mounting heights of 200'. In other words, the attached propagation map shows the coverage that would result if AT&T mounted its facility at 200' on each of the surrounding sites. As clearly demonstrated in the attached propagation map, an increase in height of the surrounding sites would not eliminate the need for the proposed site at 95 Balance Rock Road.
