***Re: Docket No. 417 – Application by T-Mobile Northeast LLC
for a Certificate of Environmental Compatibility and Public
Need for a Telecommunications Facility at Moose Hill Road
in the town of Guilford, Connecticut***

Dear Ms. Roberts:

I write on behalf of the Applicant, T-Mobile Northeast LLC ("T-Mobile), regarding the above-captioned matter. The Connecticut Siting Council ("Council") has requested that T-Mobile provide (1) information pertaining to the Town of Guilford's ("Town") seasonal population fluctuations and (2) propagation plots depicting the coverage from the telecommunications facility proposed in this Docket (designated as CTNH 805A) and the telecommunications facility approved by the Council in Docket 413 (designated as CTNH 804C).

With respect to the first item, T-Mobile was unable to ascertain the extent of any seasonal population fluctuations in the Town. According to the Town, the average population of the Town is approximately 22,000.

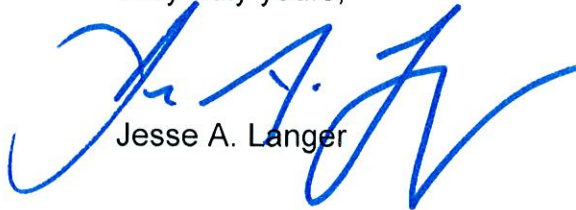

With respect to the second item, I have attached the following propagation plots: (1) a plot depicting the coverage from CTNH 804C and CTNH 805A and (2) a composite plot depicting T-Mobile's existing coverage with CTNH 804C and CTNH 805A.

T-Mobile submitted a response to the Council's other requests for post-hearing filings prior to this submission.

Ms. Linda L. Roberts
Connecticut Siting Council
