Attn: Melanie A. Bachman  
Acting Executive Director/Staff Attorney

*Re: Docket No. 422 – North Atlantic Towers, LLC (“NAT”) Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance and Management of a Telecommunications Facility Located at 655 Basset Road, Watertown, CT (the “Facility”)*

Dear Ms Bachman:

This correspondence is in response to your letter dated March 17, 2014, wherein you requested a construction progress report and an update on the installation of new and additional monopine branches for the antenna concealment.

NAT substantially completed construction of the Facility in mid-November, 2013, except for the access road and some drainage features. Due to sustained and repeated weather delays and delays from CL&P for the installation of electric service, installation of the final road bed and miscellaneous ground repair work is underway at this time. New Cingular Wireless PCS, LLC (“AT&T”) reportedly began the installation of its equipment shortly thereafter. According to representatives of AT&T, their construction complete and on air as of April 1, 2014.

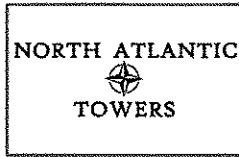

As for the antenna concealment, we will be obtaining antenna covers from Cell Trees Inc, to be used to conceal the antennas, within the next two (2) weeks. Furthermore, we received a revised branch distribution from Larson Camouflage (“Larson”), which when installed, will conceal the antennas and mount as intended by the D&M plans for the Facility. The necessary branches will be shipped in approximately two (2) weeks, and once received, will be installed by our general contractor, Phoenix Partnership, within one (1) week of receipt.

NAT thanks the Council for its patience and understanding while we resolve these issues. Please do not hesitate to contact us with any further questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Brett Bugeln", is written over the typed name.

Brett Bugeln  
Manager/President
