RE: **DOCKET NO. 423** – North Atlantic Towers, LLC Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located off of Route 198, Woodstock, Connecticut.

Dear Attorney Chiocchio:

During a public meeting held on September 4, 2014, the Connecticut Siting Council (Council) considered your request for an extension of the deadline for this site to become operational, dated August 26, 2014, and granted a six-month extension of time until June 21, 2015, for this site to become operational.

Pursuant to condition 8 of the Certificate, any request for extension to fully construct this telecommunications facility with at least one fully operational wireless telecommunications carrier shall be filed with the Council not later than 60 days prior to the expiration of this Certificate and shall be served on all parties and intervenors, as listed on the current service list and the Town.

This extension is granted with the understanding that the Council will be notified should the applicant decide not to proceed with construction.

Sincerely,

Robert Stein
Chairman

RS/CMW/cm
