Re: *Docket No. 424*
***The Connecticut Light & Power Company's application for a
Certificate of Environmental Compatibility and Public Need for
the Connecticut portion of the Interstate Reliability Project***

Dear Ms. Roberts,

In Volume 1A, Section 13 (p. 13-2) of its application in the above Docket, the applicant refers to a report to be published by ISO-NE, entitled *New England East-West Solution (NEEWS): Interstate Reliability Project Component Updated Transmission Analysis Solution Study Report*. The application states that a "draft of this report (the *2011 Updated Solution Study Report*) was posted for review by ISO-NE stakeholders on November 22, 2011 and is expected to become final on December 23, 2011. When that report has been published and redacted to protect CEII, CL&P will supplement this Application by filing copies with the Council and serving copies on the participants in the proceeding to be held on this Application."

The full *Updated Solution Study Report*, with CEII included in it, has previously been filed with the Council pursuant to protective order. ISO-NE has now completed the redaction of CEII from that report and released the public version. Accordingly, I enclose herewith twenty-one copies of the redacted report. I have also provided the Council with an electronic copy of the report which, because of its bulk, consists of both a pdf file for the text of the report and a zip file of the Appendices.

Very truly yours,

Anthony M. Fitzgerald
