1. Manner in which petitioner claims to be substantially and specifically affected:

This cell phone tower would destroy our everyday of living. Not only would it be terrible to look at, there are many other specific reasons. What would happen to the value of our homes? I have been working with a real estate agent and zoning to figure that out. Real estate is one of the biggest investments in your life and this tower will forever affect our financial future. Also, there is the health risks. I have done some research on this. I hear the word, "within regulations," quite frequently. So that means there is electromagnetic radiation now added to our neighborhood. That is unacceptable in any way. In the pending proposal it is stated that this is a "public need". That is not true. I have started a petition to hundreds of my neighbors and intend on doing hundreds more and the "public" does not want this tower. This is a residential area, it is unbelievable that this would even be proposed. Cell phone service is now more important than our health, our childrens health, our financial future? What is the world coming to?

2. Manner and extent to which petitioner proposes to participate:

I intend to completely stop the construction of this tower. I will follow this to the end and hire an attorney if necessary. I have the backing of my entire Riverside community who is disgusted by these intentions.

Copies of this request shall be mailed to all participants at least five (5) business days before the date of the hearing.
