comments and concerns with living right
across from the firehouse I would
not want my 7yr old to be
subjected to anything that would
make him unhealthy!! with there
being no proof of nothing happening to
children or adults how can anyone
put a tower where there

Comments and Concerns: I have a child twelve years old and there are many other children in the immediate area. After many hours, days, and months of researching this proposal, I feel it is not in the best interest, health, welfare and the safety of residence now or in the future. Therefore I am adamantly opposed to this tower.

Much scientific testing has now been done ~~on~~ cell phone radiation and it's affect on the brain and immune system, resulting in cancers, brain tumors, leukemia, etc. not to mention the affect radiation pollution has on normal mental functioning. In some states cell phone municipalities are now prohibited from erecting cell phone towers on public schools because they are too harmful to health.

It is established cell phones emit radiation up to 1 ½ into the brain. And towers emit much more radiation. Bottom Line... there is absolutely no "guarantee" these towers are safe and I don't want them around my home and will fight this in my neighborhood.

comments and concerns We are concern about
our health & Also the Resale of our home
Plus I ~~already~~ ^{already} get cell service why do we
need a cell tower there. Why not put the
towers closer to the beach, that's where the
reception problem seems to be But NOT Here.

comments and concerns This tower would
be in my back yard - which is
almost marsh land - why not use
empty space on solid ground in
short beach

We have gone so long without
cell phone service - why correct it now
