Attachment 10

Application Guideline	Location in Application
(A) An Executive Summary on the first page of the application	I.B: Executive Summary, pages 2-3
with the address, proposed height, and type of tower being	3,1,2
proposed. A map showing the location of the proposed site	Attachments 3 and 4: Description and Design
should accompany the description;	of Proposed Facility
(B) A brief description of the proposed facility, including the	I.B: Executive Summary, pages 2-3
proposed locations and heights of each of the various proposed	, , , , , , , , , , , , , , , , , , ,
sites of the facility, including all candidates referred to in the	V: Facility Designs: pages 13-16
application;	The state of the s
(C) A statement of the purpose for which the application is	I.A: Purpose and Authority, page 1
made;	in it is apose and reasonity, page r
(D) A statement describing the statutory authority for such	I.A: Purpose and Authority, page 1
application;	in it dipose and radiotity, page 1
(E) The exact legal name of each person seeking the	I.C: The Applicant, page 3
authorization or relief and the address or principle place of	i.e. The Applicant, page 3
business of each such person. If any applicant is a corporation,	
trust, or other organized group, it shall also give the state under	
the laws of which it was created or organized;	
(F) The name, title, address, and telephone number of the	I.C: The Applicant, page 3
attorney or other person to whom correspondence or	i.e. The Applicant, page 3
communications in regard to the application are to be	
addressed. Notice, orders, and other papers may be served	
upon the person so named, and such service shall be deemed to	
be service upon the applicant;	
(G) A statement of the need for the proposed facility with as	III.A: Statement of Need, page 4-9
much specific information as is practicable to demonstrate the	m.A. Statement of Need, page 4-9
need including a description of the proposed system and how	Attachment 1: Statement of RF Need with
the proposed facility would eliminate or alleviate any existing	Coverage Plots and Report
deficiency or limitation;	Coverage 1 lots and Report
(H) A statement of the benefits expected from the proposed	III.B: Statement of Benefits, pages 9-11
facility with as much specific information as is practicable;	III.D. Statement of Benefits, pages 7 11
(I) A description of the proposed facility at the proposed prime	I.B. Evecutive Summary, pages 2-3
and alternative sites including:	i.b. Executive Summary, pages 2-3
(1) Height of the tower and its associated antennas	V: Facility Designs, pages 13-15
including a maximum "not to exceed height" for the	v. Facility Designs, pages 13-13
facility, which may be higher than the height proposed	Attachment 4: Description and Design of
by the Applicant;	Proposed Facility
(2) Access roads and utility services;	1 Toposed 1 defitty
(3) Special design features;	Attachments 3 and 4: Environmental
(4) Type, size, and number of transmitters and	Assessments
receivers, as well as the signal frequency and conservative	Assessments
worst-case and estimated operational level approximation of	
electro magnetic radiofrequency power density levels (facility	
using FCC Office of Engineering and Technology Bulletin 65,	VI.C: Power Densities, page 18
August 1997) at the base of the tower base, site compound	vi.c. i ower bensines, page 10
boundary where persons are likely to be exposed to maximum	Attachment 1: Statement of RF Need with
power densities from the facility;	
-	Coverage Plots and Report
(5) A map showing any fixed facilities with which the	
proposed facility would interact;	

Application Guideline	Location in Application
(6) The coverage signal strength, and integration of the	досинон и Аррисанон
proposed facility with any adjacent fixed facility, to be	
accompanied by multi-colored propagation maps of red, green	
and yellow (exact colors may differ depending on computer	
modeling used, but a legend is required to explain each color	
	Attachment 1: Statement of RF Need with
used) showing interfaces with any adjacent service areas,	
including a map scale and north arrows; and	Coverage Plots and Report
(7) For cellular systems, a forecast of when maximum	
capability would be reached for the proposed facility and for	
facilities that would be integrated with the proposed facility.	Attachments 2 % 1. Description and Design
(J) A description of the named sites, including:	Attachments 3 & 4: Description and Design
(1) The most recent U.S.G.S. topographic quadrangle map	of Proposed Facility
(scale 1 inch = 2000 feet) marked to show the site of the	Attachments 2(C) and 4(C). Visual Analysis
facility and any significant changes within a one mile radius of	Attachments 3(C) and 4(C): Visual Analysis
the site;	Report
(2) A map (scale not less than 1 inch = 200 feet) of the lot	
or tract on which the facility is proposed to be located showing	
the acreage and dimensions of such site, the name and location	
of adjoining public roads or the nearest public road, and the	
names of abutting owners and the portions of their lands	
abutting the site; (2) A site plan (cools not less than 1 inch = 40 feet) showing	
(3) A site plan (scale not less than 1 inch = 40 feet) showing	
the proposed facility, set back radius, existing and proposed	
contour elevations, 100 year flood zones, waterways, and all associated equipment and structures on the site;	
(4) Where relevant, a terrain profile showing the proposed	
facility and access road with existing and proposed grades; and	
(5) The most recent aerial photograph (scale not less than 1	
inch = 1000 feet) showing the proposed site, access roads, and	
all abutting properties.	
(K) A statement explaining mitigation measures for the	Attachments 3 and 4: Description and Design
proposed facility including:	of Proposed Facility
(1) Construction techniques designed to specifically minimize	of Froposed Facility
adverse effects on natural areas and sensitive areas;	Attachment 3 and 4: Environmental
(2)Special design features made specifically to avoid or	Assessment
minimize adverse effects on natural areas and sensitive areas,	Assessment
including but not limited to a yield point, if applicable;	
(3) Establishment of vegetation proposed near residential,	
recreation, and scenic areas; and	VI: Environmental Compatibility, pages 16-
(4) Methods for preservation of vegetation for wildlife habitat	18
and screening; and	
(5) Other environmental concerns identified by the applicant,	Attachments 3 and 4: Visual Analysis Reports
the Council, or any public agency, including but not limit to,	1 Transmission of the 1. Thought I mary 515 10 ports
where applicable: Coastal Consistency Analysis, Connecticut	
Heritage Areas, Ridgeline Protection Zones, DOT Scenic	
Lands, State Parks and Forests, Agricultural Lands, Wild and	
Scenic Rivers, Protected Rivers, Endangered, Threatened or	
Special Concern Species	
Special Concern Species	

Application Guideline	Location in Application
(L) A description of the proposed site and any alternative sites,	VII: Consistency with the Town of Roxbury's
including the zoning classification, planned land uses and	Land Use Regulations, pages 19-22
surrounding areas;	
(M) A description of the scenic, natural, historic, and	VI: Environmental Compatibility, pages 16-
recreational characteristics of the proposed sites and any	19
alternative sites and surrounding areas including but not	
limited to officially designated nearby hiking trails, nature	Attachments 3 and 4: Visual Analysis Reports
preserves and scenic roads;	
(N) Visibility Analyses of the proposed site area and any	Attachments 3 and 4: Visual Analysis Reports
alternative site areas including, but not limited to:	
(1) A viewshed analysis consisting of a two-mile radius	VI.A. Visual Assessments, page 16-17
from visually impacted areas such as residential developments,	
recreational areas, and historic sites;	
(2) Photographic documentation;	
(3) Balloon float photographs;	
(4) Photographic simulations in "leaf-on" and "leaf-off"	
conditions, where possible, and;	
(5) If proposed in close proximity to a shoreline,	
including lakes and rivers, photographic documentation from	
open waters, where possible.	
(N-a) An affidavit for each balloon float conducted at the	
proposed site and any alternative sites including the date, time	
and demonstrated height.	
(O) A list describing the type and height of all existing and	
proposed towers and facilities within a four mile radius within	Attachment 1: Existing Facilities List
the site search area, or within any other area from which use of	
the proposed towers might be feasible from a location	
standpoint for purposes of the application;	
(P) A description of efforts to share existing towers, including	I.B: Executive Summary, pages 2-3
but not limited to installations on electric transmission poles,	
or to consolidate telecommunications antennas of public and	IV.A: Site Selection & Town Consultation,
private services onto the proposed facility including efforts to	pages 11-13
offer tower space, where feasible, at no charge for space for	
municipal antennas;	IV.B: Tower Sharing, page 13
	V. Facility Designs, pages 12-16
	V: Facility Designs, pages 13-16
	Attachment 2: Site Search Summary
(Q) A description of the technological alternatives and a	III.C: Technological Alternatives, page 11
statement containing justification for the proposed facility;	
	Attachment 1: Statement of RF Need with
	Report and Coverage Plots
(R) A description of rejected sites with a U.S.G.S. topographic	IV.A: Site Selection and Town Consultation,
quadrangle map (scale 1 inch = 2,000 feet) marked to show the	pages 11-13
quadrangle map (scale 1 men - 2,000 feet) marked to show the	pugos 11 13

Application Guideline	Location in Application
location of rejected sites;	•
	Attachment 2: Site Search Summary
(S) A detailed description and justification for the site(s)	IV.A: Site Selection and Town Consultation,
selected, including a description of siting criteria and the	pages 11-13
narrowing process by which other possible sites were	
considered and eliminated, including, but not limited to,	Attachment 2: Site Search Summary
environmental effects, cost differential, coverage lost or	·
gained, potential interference with other facilities, and signal	
loss due to geographical features compared to the proposed	
site(s);	
(T) A statement describing hazards to human health, if any,	VI: Environmental Compatibility, pages 16-
with such supporting data including signal frequency, power	18
density and references to regulatory standards;	
(U) A statement of estimated costs for site acquisition,	IX.A: Overall Estimated Cost, page 24
construction, and equipment for a facility at the various	
proposed sites of the facility, including all candidates referred	
to in the application;	
(V) A schedule showing the proposed program of site	IX.B: Overall Scheduling, page 23
acquisition, construction, completion, operation and relocation	
or removal of existing facilities for the named sites;	
(W) A statement indicating that, weather permitting, the	VI. A: Visual Assessments, pages 16-18
applicant will raise a balloon with a diameter of at least three	
feet, at the sites of the various proposed sites of the facility,	
including all candidates referred to in the application, on the	
day of the Council's first hearing session on the application or	
at a time otherwise specified by the Council. For the	
convenience of the public, this event shall be publicly noticed	
at least 30 days prior to the hearing on the application as	
scheduled by the Council; An affidavit of the balloon float	
conducted on the day of the first hearing session including the	
date, time, demonstrated height and weather condition shall be	
filed with the Council as soon as is practicable; and	
(X) Such information as any department or agency of the state	VI: Environmental Compatibility, pages 16-
exercising environmental controls may, by regulation, require	19
including:	
1. A listing of any Federal, State, regional, district, and	Attachments 3 and 4: Correspondence with
municipal agencies, including but not limited to the Federal	the State Historic Preservation Officer
Aviation Administration; Federal Communications	
Commission; State Historic Preservation Officer; State	Attachment 10: Relevant Correspondence
Department of Environmental Protection; and local	with the Town of Roxbury
conservation, inland wetland, and planning and zoning	
commissions with which reviews were conducted concerning	VII: Consistency with the Town of Roxbury's
the facility, including a copy of any agency position or	Land Use Regulations, pages 19-23
decision with respect to the facility; and	
2. The most recent conservation, inland wetland, zoning,	D 11 D11
and plan of development documents of the municipality,	Bulk Filing
including a description of the zoning classification of the site	

Application Guideline	Location in Application
and surrounding areas, and a narrative summary of the consistency of the project with the Town's regulations and	
plans.	
(Y) Description of proposed site clearing for access road and compound including type of vegetation scheduled for removal	V: Facility Designs, pages 13-16
and quantity of trees greater than six inches diameter at breast	Attachments 3 and 4: Description and Design
height and involvement with wetlands;	of Proposed Facility
(Z) Such information as the applicant may consider relevant.
