Application Guideline	Location in Application
(A) An Executive Summary on the first page of the application	Executive Summary, pages 2-3
with the address, proposed height, and type of tower being	
proposed. A map showing the location of the proposed site	Attachments 3 & 4: Description and Design
should accompany the description;	of Candidate Facilities
(B) A brief description of the proposed facility, including the	Executive Summary, pages 2-3
proposed locations and heights of each of the various proposed	
sites of the facility, including all candidates referred to in the	Facility Design: pages 13-16
application;	
(C) A statement of the purpose for which the application is	Purpose and Authority, page 1
made;	
(D) A statement describing the statutory authority for such	Purpose and Authority, page 1
application;	
(E) The exact legal name of each person seeking the	The Applicant, page 3
authorization or relief and the address or principle place of	11 71 8
business of each such person. If any applicant is a corporation,	
trust, or other organized group, it shall also give the state under	
the laws of which it was created or organized;	
( <b>F</b> ) The name, title, address, and telephone number of the	The Applicant, page 3
attorney or other person to whom correspondence or	11 71 8
communications in regard to the application are to be	
addressed. Notice, orders, and other papers may be served	
upon the person so named, and such service shall be deemed to	
be service upon the applicant;	
(G) A statement of the need for the proposed facility with as	Statement of Need, page 4
much specific information as is practicable to demonstrate the	71 8
need including a description of the proposed system and how	Attachment 1: Statement of Need and Radio
the proposed facility would eliminate or alleviate any existing	Frequency Analysis
deficiency or limitation;	
(H) A statement of the benefits expected from the proposed	Statement of Benefits, page 9
facility with as much specific information as is practicable;	
(I) A description of the proposed facility at the proposed prime	Executive Summary, pages 2-3
and alternative sites including:	
(1) Height of the tower and its associated antennas	Facility Designs, pages 13-16
including a maximum "not to exceed height" for the	
facility, which may be higher than the height proposed	Attachment 3 and 4: Description and Design
by the Applicant;	of Proposed Candidate Facilies
(2) Access roads and utility services;	_
(3) Special design features;	Attachment 3 and 4: Environmental
(4) Type, size, and number of transmitters and	Assessment Statement
receivers, as well as the signal frequency and conservative	
worst-case and estimated operational level approximation of	Power Density, page 18
electro magnetic radiofrequency power density levels (facility	
using FCC Office of Engineering and Technology Bulletin 65,	Attachment 1: Statement of Need and Radio
August 1997) at the base of the tower base, site compound	Frequency Analysis
boundary where persons are likely to be exposed to maximum	
power densities from the facility;	
(5) A map showing any fixed facilities with which the	
proposed facility would interact;	

Application Guideline	Location in Application
(6) The coverage signal strength, and integration of the	
proposed facility with any adjacent fixed facility, to be	
accompanied by multi-colored propagation maps of red, green	
and yellow (exact colors may differ depending on computer	
modeling used, but a legend is required to explain each color	Attachment 1: Statement of Need and Radio
used) showing interfaces with any adjacent service areas,	Frequency Analysis
including a map scale and north arrows; and	
(7) For cellular systems, a forecast of when maximum	
capability would be reached for the proposed facility and for	
facilities that would be integrated with the proposed facility.	
( <b>J</b> ) A description of the named sites, including :	Attachment 3 and 4: Description and Design
(1) The most recent U.S.G.S. topographic quadrangle map	of Proposed Facility
(scale 1 inch = 2000 feet) marked to show the site of the	· ·
facility and any significant changes within a one mile radius of	Attachment 3(B) and 4(B) Visual Analyses
the site;	. , , , , , , , , , , , , , , , , , , ,
(2) A map (scale not less than 1 inch = 200 feet) of the lot	
or tract on which the facility is proposed to be located showing	
the acreage and dimensions of such site, the name and location	
of adjoining public roads or the nearest public road, and the	
names of abutting owners and the portions of their lands	
abutting the site;	
(3) A site plan (scale not less than 1 inch = 40 feet) showing	
the proposed facility, set back radius, existing and proposed	
contour elevations, 100 year flood zones, waterways, and all	
associated equipment and structures on the site;	
(4) Where relevant, a terrain profile showing the proposed	
facility and access road with existing and proposed grades; and	
(5) The most recent aerial photograph (scale not less than 1	
inch = 1000 feet) showing the proposed site, access roads, and	
all abutting properties.	
(K) A statement explaining mitigation measures for the	Attachment 3A and 4A: Description and
proposed facility including:	Design of Proposed Facility
(1) Construction techniques designed to specifically minimize	Besign of Freposed Fueling
adverse effects on natural areas and sensitive areas;	Attachment 3C and 4C: Environmental
(2)Special design features made specifically to avoid or	Assessment Statement
minimize adverse effects on natural areas and sensitive areas,	rissessment statement
including but not limited to a yield point, if applicable;	
(3) Establishment of vegetation proposed near residential,	VI: Environmental Compatibility, pages 15-
recreation, and scenic areas; and	18
(4) Methods for preservation of vegetation for wildlife habitat	
and screening; and	
(5) Other environmental concerns identified by the applicant,	
the Council, or any public agency, including but not limit to,	
where applicable: Coastal Consistency Analysis, Connecticut	
Heritage Areas, Ridgeline Protection Zones, DOT Scenic	
Lands, State Parks and Forests, Agricultural Lands, Wild and	
Scenic Rivers, Protected Rivers, Endangered, Threatened or	
Special Concern Species	
Special Collectif Species
