Re: Docket 436 – Request for Extension of Time
Message Center Management (“MCM”)
465 Hills Street, East Hartford, Connecticut

Dear Chairman Robert Stein and Members of the Connecticut Siting Council:

On behalf of Message Center Management, Inc. (“MCM”), please accept this letter regarding the captioned Facility for which the Siting Council issued a Certificate of Environmental Compatibility and Public Need in Docket 436 (“Certificate”).

Condition 8 of the Decision and Order dated July 25, 2013 required the approved facility to be fully constructed and providing wireless services within eighteen months from the date of the mailing of the Council’s Findings of Fact, Opinion, and Decision and Order.

While the tower is constructed and the Town’s antennas installed and operational, we are advised that AT&T’s antennas and equipment will not be installed until next year (2015). Accordingly, we respectfully request a one-year extension of the Certificate’s allowed completion time to January 25, 2016 to allow sufficient time to assure installation of AT&T’s Facility.

Should Council members or Staff have any questions regarding the foregoing please do not hesitate to contact me. Thank you for your consideration of this request.

Very truly yours,

Daniel M. Laub
