Attachment 8

Application Guideline	Location in Application
(A) An Executive Summary on the first page of the application	I.B: Executive Summary, pages 2-4
with the address, proposed height, and type of tower being	
proposed. A map showing the location of the proposed site	Attachments 3 and 4 (with subtabs):
should accompany the description;	Description and Design of Proposed Facility
( <b>B</b> ) A brief description of the proposed facility, including the	I.B: Executive Summary, pages 2-3
proposed locations and heights of each of the various proposed	
sites of the facility, including all candidates referred to in the	V: Candidate Facility Designs: pages 14-17
application;	
$(\mathbf{C})$ A statement of the purpose for which the application is	I.A: Purpose and Authority, page 1
made;	
( <b>D</b> ) A statement describing the statutory authority for such	I.A: Purpose and Authority, page 1
application;	
(E) The exact legal name of each person seeking the	I.C: The Applicants, page 3
authorization or relief and the address or principle place of	
business of each such person. If any applicant is a corporation,	
trust, or other organized group, it shall also give the state under	
the laws of which it was created or organized;	
(F) The name, title, address, and telephone number of the	I.C: The Applicants, page 3
attorney or other person to whom correspondence or	
communications in regard to the application are to be	
addressed. Notice, orders, and other papers may be served	
upon the person so named, and such service shall be deemed to	
be service upon the applicant;	
(G) A statement of the need for the proposed facility with as	III.A: Statement of Need, page 6-9
much specific information as is practicable to demonstrate the	
need including a description of the proposed system and how	Attachment 1: Statement of Need with
the proposed facility would eliminate or alleviate any existing	Report
deficiency or limitation;	1
(H) A statement of the benefits expected from the proposed	III.B: Statement of Benefits, pages 10-12
facility with as much specific information as is practicable;	
(I) A description of the proposed facility at the proposed prime	I.B. Executive Summary, pages 2-4
and alternative sites including:	, , , , , , , , , , , , , , , , , , ,
(1) Height of the tower and its associated antennas	V: Candidate Facility Designs, pages 14-17
including a maximum "not to exceed height" for the	· · · · · · · · · · · · · · · · · · ·
facility, which may be higher than the height proposed	Attachment 3 and 4 (with subtabs):
by the Applicant;	Description and Design of Proposed Facility
(2) Access roads and utility services;	
(3) Special design features;	Attachments 3, $3(B)$ , 4 and $4(B)$ :
(4) Type, size, and number of transmitters and	Environmental Assessment Information
receivers, as well as the signal frequency and conservative	
worst-case and estimated operational level approximation of	
	VI.C: Power Densities, page 20
<b>č</b> 1	Attachment 1: Statement of Need with
	1
electro magnetic radiofrequency power density levels (facility using FCC Office of Engineering and Technology Bulletin 65, August 1997) at the base of the tower base, site compound boundary where persons are likely to be exposed to maximum power densities from the facility; (5) A map showing any fixed facilities with which the proposed facility would interact;	VI.C: Power Densities, page 20 Attachment 1: Statement of Need with Report

Application Guideline	Location in Application
(6) The coverage signal strength, and integration of the	
proposed facility with any adjacent fixed facility, to be	
accompanied by multi-colored propagation maps of red, green	
and yellow (exact colors may differ depending on computer	
modeling used, but a legend is required to explain each color	
used) showing interfaces with any adjacent service areas,	Attachment 1: Statement of Need with
including a map scale and north arrows; and	Report
(7) For cellular systems, a forecast of when maximum	Report
capability would be reached for the proposed facility and for facilities that would be integrated with the proposed facility	
facilities that would be integrated with the proposed facility.	Attachments 2 $2(\Lambda)$ 4 and $4(\Lambda)$ : Description
(J) A description of the named sites, including : (1) The most recent U.S.C.S. tonographic quadrangle man	Attachments 3, 3(A), 4 and 4(A): Description
(1) The most recent U.S.G.S. topographic quadrangle map $(accle 1)$ in $carbon = 2000$ fact) marked to show the site of the	and Design of Proposed Facility
(scale 1 inch = 2000 feet) marked to show the site of the	Attachments $2(\Lambda)$ and $4(\Lambda)$
facility and any significant changes within a one mile radius of	Attachments 3(A) and 4(A)
the site; (2) A map (coole not loss than 1 inch $= 200$ fact) of the lot	Attachments 2(C) and 4(C), Viewal Analysis
(2) A map (scale not less than 1 inch = $200$ feet) of the lot	Attachments 3(C) and 4(C): Visual Analysis
or tract on which the facility is proposed to be located showing	Report
the acreage and dimensions of such site, the name and location	
of adjoining public roads or the nearest public road, and the	
names of abutting owners and the portions of their lands	
abutting the site;	
(3) A site plan (scale not less than 1 inch = $40$ feet) showing	
the proposed facility, set back radius, existing and proposed	
contour elevations, 100 year flood zones, waterways, and all	
associated equipment and structures on the site;	
(4) Where relevant, a terrain profile showing the proposed	
facility and access road with existing and proposed grades; and	
(5) The most recent aerial photograph (scale not less than 1	
inch = $1000$ feet) showing the proposed site, access roads, and	
all abutting properties.	
( <b>K</b> ) A statement explaining mitigation measures for the	Attachments 3, 3(A), 4 and 4(A): Description
proposed facility including:	and Design of Proposed Facility
(1) Construction techniques designed to specifically minimize	
adverse effects on natural areas and sensitive areas;	Attachment 3, $3(B)$ , 4 and $4(B)$ :
(2)Special design features made specifically to avoid or	Environmental Assessment
minimize adverse effects on natural areas and sensitive areas,	
including but not limited to a yield point, if applicable;	
(3) Establishment of vegetation proposed near residential,	
recreation, and scenic areas; and	VI: Environmental Compatibility, pages 17-
(4) Methods for preservation of vegetation for wildlife habitat	21
and screening; and	
(5) Other environmental concerns identified by the applicant,	Attachments 3(C) and 4(C): Visual Analysis
the Council, or any public agency, including but not limit to,	Reports
where applicable: Coastal Consistency Analysis, Connecticut	
Heritage Areas, Ridgeline Protection Zones, DOT Scenic	
Lands, State Parks and Forests, Agricultural Lands, Wild and	
Scenic Rivers, Protected Rivers, Endangered, Threatened or	
Special Concern Species	

Application Guideline	Location in Application
(L) A description of the proposed site and any alternative sites,	VII: Consistency with the East Hartford's
including the zoning classification, planned land uses and	Land Use Regulations, pages 21-26
surrounding areas;	
(M) A description of the scenic, natural, historic, and	VI: Environmental Compatibility, pages 17-
recreational characteristics of the proposed sites and any	21
alternative sites and surrounding areas including but not	
limited to officially designated nearby hiking trails, nature	Attachments 3(C) and 4(C): Visual Analysis
preserves and scenic roads;	Reports
(N) Visibility Analyses of the proposed site area and any	Attachments 3(C) and 4(C): Visual Analysis
alternative site areas including, but not limited to:	Reports
(1) A viewshed analysis consisting of a two-mile radius	
from visually impacted areas such as residential developments,	VI.A. Visual Assessments, page 17-19
recreational areas, and historic sites;	
(2) Photographic documentation;	
(3) Balloon float photographs;	
(4) Photographic simulations in "leaf-on" and "leaf-off"	
conditions, where possible, and;	
(5) If proposed in close proximity to a shoreline,	
including lakes and rivers, photographic documentation from	
open waters, where possible.	
(N-a) An affidavit for each balloon float conducted at the	
proposed site and any alternative sites including the date, time	
and demonstrated height.	
( <b>O</b> ) A list describing the type and height of all existing and	
proposed towers and facilities within a four mile radius within	Attachment 2: Existing Facilities List
the site search area, or within any other area from which use of	
the proposed towers might be feasible from a location	
standpoint for purposes of the application;	
(P) A description of efforts to share existing towers, including	I.B: Executive Summary, pages 2-4
but not limited to installations on electric transmission poles,	
or to consolidate telecommunications antennas of public and	IV.A: Site Selection & Town Consultation,
private services onto the proposed facility including efforts to	pages 12-14
offer tower space, where feasible, at no charge for space for	
municipal antennas;	IV.B: Tower Sharing, page 14
	V: Candidate Facility Designs, pages 14-17
	Attachment 2: Site Search Summary
$(\mathbf{Q})$ A description of the technological alternatives and a	III.C: Technological Alternatives, page 12
statement containing justification for the proposed facility;	
	Attachment 1: Statement of Need with
	Report
( <b>R</b> ) A description of rejected sites with a U.S.G.S. topographic	IV.A: Site Selection and Town Consultation,
quadrangle map (scale 1 inch = $2,000$ feet) marked to show the	pages 12-14

Application Guideline	Location in Application
location of rejected sites;	
	Attachment 2: Site Search Summary
(S) A detailed description and justification for the site(s)	IV.A: Site Selection and Town Consultation,
selected, including a description of siting criteria and the	pages 12-14
narrowing process by which other possible sites were	P*8**
considered and eliminated, including, but not limited to,	Attachment 2: Site Search Summary
environmental effects, cost differential, coverage lost or	r trachinent 2. Site Searen Summary
gained, potential interference with other facilities, and signal	
loss due to geographical features compared to the proposed	
site(s);	
510(5),	
( <b>T</b> ) A statement describing hazards to human health, if any,	VI: Environmental Compatibility, pages 17-
with such supporting data including signal frequency, power	21
density and references to regulatory standards;	21
(U) A statement of estimated costs for site acquisition,	IX.A: Overall Estimated Cost, page 26
construction, and equipment for a facility at the various	IX.A. Overall Estimated Cost, page 20
proposed sites of the facility, including all candidates referred to in the application;	
	IV D. Overell Scheduling, page 27
(V) A schedule showing the proposed program of site	IX.B: Overall Scheduling, page 27
acquisition, construction, completion, operation and relocation	
or removal of existing facilities for the named sites;	
(W) A statement indicating that, weather permitting, the	VI. A: Visual Assessments, pages 17-18
applicant will raise a balloon with a diameter of at least three	
feet, at the sites of the various proposed sites of the facility,	
including all candidates referred to in the application, on the	
day of the Council's first hearing session on the application or	
at a time otherwise specified by the Council. For the	
convenience of the public, this event shall be publicly noticed	
at least 30 days prior to the hearing on the application as	
scheduled by the Council; An affidavit of the balloon float	
conducted on the day of the first hearing session including the	
date, time, demonstrated height and weather condition shall be	
filed with the Council as soon as is practicable; and	
(X) Such information as any department or agency of the state	VI: Environmental Compatibility, pages 17-
exercising environmental controls may, by regulation, require	21
including:	
1. A listing of any Federal, State, regional, district, and	Attachments 3(B) and 4(B): Correspondence
municipal agencies, including but not limited to the Federal	with the State Historic Preservation Officer
Aviation Administration; Federal Communications	
Commission; State Historic Preservation Officer; State	Attachment 5: Correspondence with East
Department of Environmental Protection; and local	Hartford
conservation, inland wetland, and planning and zoning	
commissions with which reviews were conducted concerning	VII: Consistency with East Hartford's Land
the facility, including a copy of any agency position or	Use Regulations, pages 21-26
decision with respect to the facility; and	
2. The most recent conservation, inland wetland, zoning,	
and plan of development documents of the municipality,	Bulk Filing
including a description of the zoning classification of the site	

Application Guideline	Location in Application
and surrounding areas, and a narrative summary of the consistency of the project with the Town's regulations and plans.	
<b>(Y)</b> Description of proposed site clearing for access road and compound including type of vegetation scheduled for removal	V: Facility Designs, pages 13-16
and quantity of trees greater than six inches diameter at breast	Attachments 3, 3(A), 4 and 4(A): Description
height and involvement with wetlands;	and Design of Proposed Facility
(Z) Such information as the applicant may consider relevant.
