IN RE:

APPLICATION OF NEW CINGULAR WIRELESS
PCS, LLC (AT&T) FOR A CERTIFICATE OF
ENVIRONMENTAL COMPATIBILITY AND
PUBLIC NEED FOR THE CONSTRUCTION,
MAINTENANCE AND OPERATION OF A
TELECOMMUNICATIONS TOWER FACILITY IN
BRIDGEWATER, CONNECTICUT

DOCKET NO. 437

July 10, 2013

SUPPLEMENTAL SUBMISSION
OF INFORMATION REQUESTED BY THE SITING COUNCIL

New Cingular Wireless PCS, LLC (“AT&T”) submits the following information in response to the Siting Council’s requests at the June 25th hearing on Docket 437 and as per the Council’s Late File Memo to Parties and Intervenors, dated June 26, 2013.

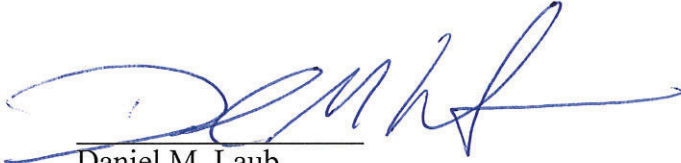

Included in this late file submission, please find the following:

- Attachment 1: Revised site plan and associated details of proposed drainage improvements and sediment and erosion control measures. Screening as amenable to the landowner is still being pursued and an update will be provided to the Siting Council on that issue as soon as available.
- Attachment 2: A color version of the Conservation Resources Map from the Town of Bridgewater’s Plan of Conservation and Development. Of note, abutting properties, including the property located at 79 Second Hill Road (Tax Map parcel 29-1), are depicted in salmon/pink which correlates to the associated table as “Privately Owned Land With Restrictions”. No public access is noted or known to the Applicant regarding this neighboring parcel.
- Attachment 3: Bridgewater Town Clerks Filed Map Number 904-A, referenced in Map Reference 2 of the Abutters Map (C01) included in Applicant’s Exhibit 1 (Application), Tab 3. Due to the very poor image quality of Map 904-A, please also find included a Map 904-A with color line overlays and clarifications as provided by the Applicants’ consultants CHA. Of note, the 95.553 acre parcel to the east of Second Hill Road is both a part of the map showing development rights to be acquired by the State of Connecticut (Map 904-A) and also represents a large portion of 79 Second Hill Road (Tax Map parcel 29-1) which is noted as privately owned but with restricted development rights according to Conservation Resources Map (as shown in Attachment 2 to this late file submission).

CERTIFICATE OF SERVICE

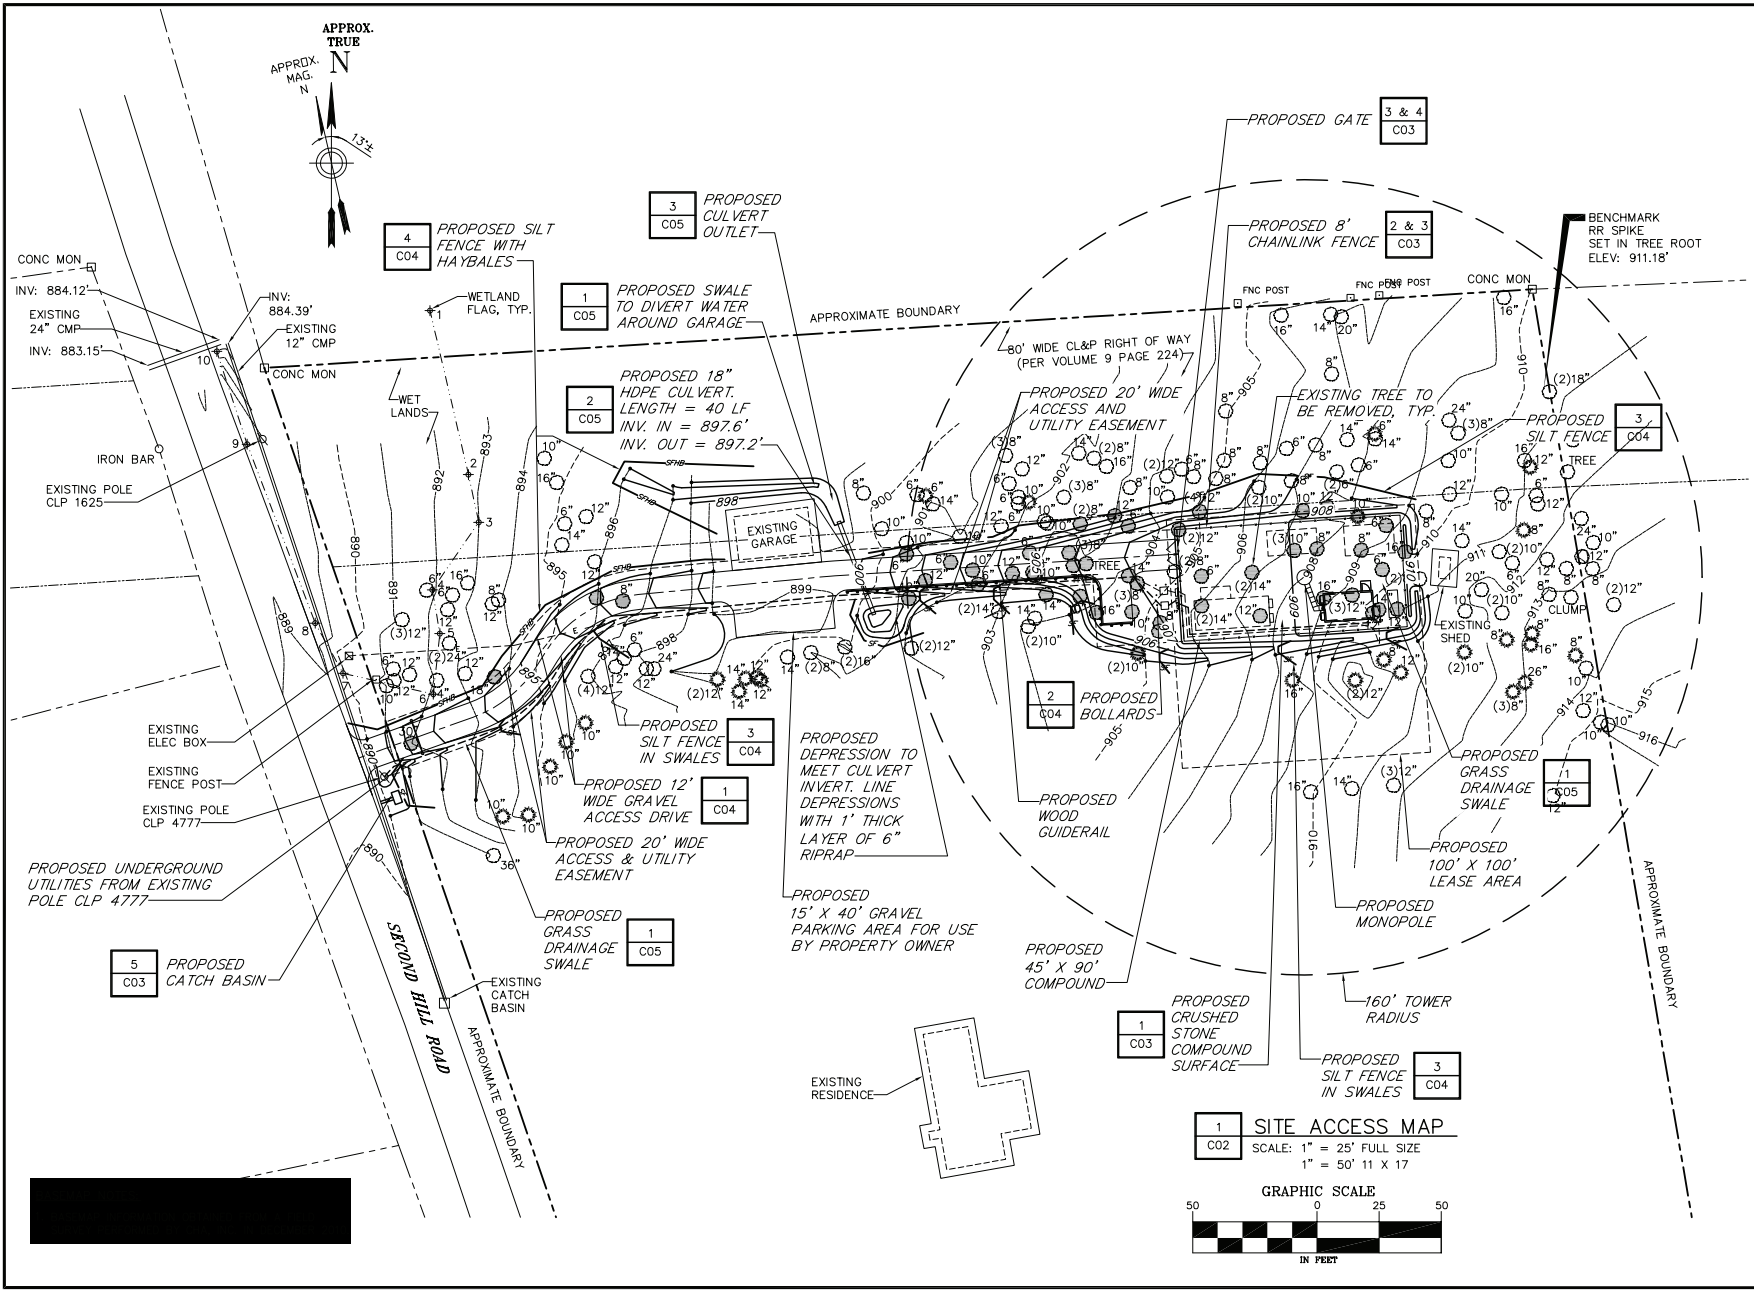

I hereby certify that on this day, an original and fifteen copies of the foregoing was sent electronically and by overnight delivery to the Connecticut Siting Council.

Dated: July 10, 2013

A handwritten signature in blue ink, appearing to read 'DML', is written over a horizontal line. The signature is fluid and cursive.

Daniel M. Laub

- NOTE:**
- THE GEOTEXTILE FABRIC SHALL MEET THE DESIGN CRITERIA FOR SILT FENCES.
 - THE FABRIC SHALL BE EMBEDDED A MINIMUM OF 12" INTO THE GROUND AND THE SOIL COMPACTED OVER THE EMBEDDED FABRIC.
 - WOVEN WIRE FENCES SHALL BE FASTENED SECURELY TO THE FENCE POSTS WITH WIRE TIES OR STAPLES.
 - FILTER CLOTH SHALL BE FASTENED SECURELY TO THE WOVEN WIRE FENCE WITH TIES SPACED EVERY 24 INCHES AT THE TOP, MID-SECTION, AND BOTTOM.
 - WHEN TWO SECTIONS OF FILTER CLOTH ADJOIN ONE ANOTHER, THEY SHALL BE OVERLAPPED BY 6 INCHES, FOLDED AND STAPLED.
 - FENCE POSTS SHALL BE A MINIMUM OF 36" LONG AND DRIVEN A MINIMUM OF 24" INTO THE GROUND. WOOD POSTS SHALL BE OF SOUND QUALITY HARDWOOD AND SHALL HAVE A MINIMUM CROSS SECTIONAL AREA OF 3.0 SQUARE INCHES.
 - MAINTENANCE SHALL BE PERFORMED AS NEEDED TO PREVENT BULGES IN THE SILT FENCE DUE TO DEPOSITION OF SEDIMENT.
