RE: **DOCKET NO. 442** – New Cingular Wireless, PCS Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at 284 New Canaan Avenue, Norwalk, Connecticut.
Development and Management Plan Part II – East Unipole.

Dear Attorney Baldwin:

The Connecticut Siting Council (Council) requests your responses to the enclosed questions no later than January 11, 2023.

Please submit an original and 15 copies to the Council's office and an electronic copy to siting.council@ct.gov. In accordance with the State Solid Waste Management Plan and in accordance with Section 16-50j-12 of the Regulations of Connecticut State Agencies, the Council requests all filings be submitted on recyclable paper, primarily regular weight white office paper. Please avoid using heavy stock paper, colored paper, and metal or plastic binders and separators. Fewer copies of bulk material may be provided as appropriate.

Please be advised that the original and 15 copies are required to be submitted to the Council's office on or before the January 11, 2023 deadline.

Copies of your responses are required to be provided to all parties and intervenors listed in the service list, which can be found on the Council's website under the "Pending Matters" link.

Any request for an extension of time to submit responses to interrogatories shall be submitted to the Council in writing pursuant to §16-50j-22a of the Regulations of Connecticut State Agencies.

Sincerely,

Melanie Bachman
Executive Director

Docket No. 442
284 New Canaan Avenue, Norwalk
Development & Management Plan Part II – East Unipole

Interrogatories to Cellco
December 28, 2022

1. The initial site plans included in the Development and Management (D&M) Plan submitted by the Certificate Holder on November 25, 2014, and supplemental site plans submitted on December 24, 2014 and January 20, 2015, show Cellco at different tower levels and a different compound layout when compared to Cellco's December 9, 2022 D&M Plan. Explain why the revisions to the antenna heights and compound layout are necessary.
2. Will the tower be painted to match the existing West Unipole, consistent with the D&M Plan submitted by the Certificate Holder on November 25, 2014 and the supplemental site plans submitted on January 20, 2015, and approved by the Council on January 23, 2015? If yes, provide this information on the Site Plans. If no, explain.
3. Are there any changes to the Antenna Schedule on Site Plan RF-1 since the last update to the D&M Plan in August 2021? If, yes, provide the revised antenna/equipment schedule.
4. What is the run time for the emergency backup generator before the propane fuel tank requires refilling?
5. Page 9 of the geotechnical report recommends a geo-technical engineer should be on-site to observe excavation and foundation preparation. Does Cellco intend to implement this recommendation?
6. Site Plans GN-1 and SN-1 refer to EIA/TIA-222-G. Revise the drawings to include reference to EIA/TIA-222-H.
7. The Connecticut State Building Code was updated effective October 1, 2022. Has the facility been designed to the updated code? If not, what changes are necessary to the design of the facility to comply with the updated code?
8. Provide a rigorous cumulative far-field radio frequency analysis for the facility that accounts for Cellco's proposed equipment on the East Unipole and AT&T's existing equipment and DISH's proposed equipment (TS-DISH-103-221206) on the West Unipole, accounting for a 6-foot tall person at ground level and the actual antenna patterns for the facility with a cumulative %MPE at or below 100%. Identify the distance from the unipoles with the highest cumulative %MPE.
9. Provide a construction schedule including hours and days of the week for construction activities.
10. Confirm notice of the filing, or a copy of the D&M Plan, was provided to the property owner, pursuant to Regulations of Connecticut State Agencies §16-50j-75(e).
