Subject: Proposed New Tower Project
381 Kent Road
New Milford, CT
New Cingular Wireless PCS

Dear Mr. Libertine:

The State Historic Preservation Office is in receipt of the proposal for the above-referenced project, submitted for review and comment pursuant to the National Historic Preservation Act and in accordance with Federal Communications Commission regulations.

After completing review of 381 Kent Road, All-Points Technology Corporation has in their professional opinion stated that there will be no historic properties affected by the project to install a new 150' monopole and 12' x 20' equipment shelter, enclosed by a 75' x 75' fenced compound. Furthermore, the Preliminary Cultural Resources Assessment produced by Heritage Consultants in June 1013 states "...it is the professional opinion of Heritage Consultants, LLC that no further cultural resources investigations of the proposed telecommunications tower is warranted." Based on the information provided to this office, no historic properties will be affected.

The State Historic Preservation Office appreciates the opportunity to review and comment upon this project. These comments are provided in accordance with the Connecticut Environmental Policy Act and Section 106 of the National Historic Preservation Act. For further information please contact Todd Levine, Environmental Reviewer, at (860) 256-2759 or todd.levine@ct.gov.

Sincerely,

Daniel T. Forrest
State Historic Preservation Officer
