September 26, 2014

APPLICANTS' LATE FILE OF INFORMATION
REQUESTED BY SITING COUNCIL

At the September 9, 2014 continued hearing for Docket 449 the Siting Council requested additional information regarding the predicted coverage by street. Please find that information included here as Attachment 1.

In addition, the Council also requested follow-up information regarding fuel spill containment for the portable generators AT&T uses for sites with no permanent generator. While the portable generator carts AT&T deploys do not have built in secondary spill containment, as found with its permanent generator systems, where needed AT&T's portable generator sets are set up on a containment pad with berms providing secondary spill containment.
