RE: **DOCKET NO. 449** – Message Center Management Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a telecommunications facility located at Redding Ridge Fire Department, 186 Black Rock Turnpike, Redding, Connecticut.

Dear Attorney Laub:

The Connecticut Siting Council (Council) is in receipt of your correspondence dated August 17, 2016, regarding the modification to the Development and Management (D&M) Plan for the above-referenced site that was approved by the Council on September 17, 2015, and the amendment approved on December 22, 2015.

Pursuant to Regulations of Connecticut State Agencies §16-50j-77(b), your request to install an 80' above ground level ballast mount temporary telecommunications facility located north of the fire station in the paved parking area in lieu of the approved 80' above ground level temporary tower utilizing a temporary foundation located east of the fire station is hereby approved.

This approval applies only to the D&M Plan modification dated August 17, 2016. Any significant changes to the D&M Plan require advance Council notification and approval.

Please be advised that deviations from this plan are enforceable under the provisions of the Connecticut General Statutes § 16-50u. Furthermore, the Certificate Holder is responsible for reporting requirements pursuant to Regulations of Connecticut State Agencies Section 16-50j-77.

Thank you for your attention and cooperation.

Very truly yours,

Melanie A. Bachman
Acting Executive Director
