All-Points Technology Corporation
3 Saddlebrook Drive
Killingworth, CT 06457-1847

Subject: Proposed Monopine project
30 Cobblers Hill Court
Monroe, CT
AT&T Mobility

Dear Mr. Libertine:

The State Historic Preservation Office is in receipt of the proposal for the above-referenced project, submitted for review and comment pursuant to the National Historic Preservation Act and in accordance with Federal Communications Commission regulations.

After completing review of 30 Cobblers Hill Court, All-Points Technology Corporation has in their professional opinion stated that there will be no historic properties affected by the project to develop a new wireless telecommunications facility, which consists of a 162' monopine and appropriate associated equipment shelter enclosed by a 75' by 75' fenced compound within a 100' by 100' lease area.

Furthermore, Heritage Consultant's Preliminary Cultural Resources Assessment concluded that "Based on the available data and field conditions, it is unlikely that significant intact archeological deposits are situated within the proposed project items because of the significant levels of disturbance. In addition, no historic properties were previously identified within the Area of Potential Effect associated with the proposed undertaking. "

Based on the information provided to this office, SHPO concurs that no historic properties will be affected by this project.

The State Historic Preservation Office appreciates the opportunity to review and comment upon this project. These comments are provided in accordance with the Connecticut Environmental Policy Act and Section 106 of the National Historic Preservation Act. For further information please contact Todd Levine,
