Re: **Docket No. 454 – Tower Holdings, LLC Application for a Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance and Operation of a Telecommunications Facility Located at 199 Brickyard Road, Farmington, Connecticut**

Dear Ms. Bachman:

This letter is in response to your December 12, 2014 memorandum, regarding my client's interest in the above-referenced telecommunications facility. The proposed Tower Holdings, LLC wireless facility off Brickyard Road would provide the Cellco Partnership d/b/a Verizon Wireless ("Cellco") network with the ability to provide improved wireless service and, more importantly, off-load existing traffic (capacity) from Cellco's existing Farmington 4 cell site located off Hyde Road in Farmington, CT. That need, however, is not currently a priority in Cellco's 2015 build program budget. As such, Cellco will not intervene in the Docket No. 454 proceeding.

If Cellco was interested in sharing the proposed Tower Holdings, LLC facility today, it would seek to install antennas at a height of approximately 110 feet above ground level. The tower height that Cellco ultimately selects, however, will depend on a number of factors including, but not limited to, the state of network operations in Farmington and the development of other surrounding sites in the future.
