Subject: Proposed Telecommunications Facility
199 Brickyard Road
Farmington, CT
Northeast Towers, Inc

Dear Mr. Karmazinas:

The State Historic Preservation Office is in receipt of the submitted proposal for the above-referenced project, submitted for review and comment pursuant to the National Historic Preservation Act and in accordance with Federal Communications Commission regulations.

After completing review of 199 Brickyard Road, FuturePast Preservation has in their professional opinion stated that there will be no historic properties affected by the proposed 180' lattice tower and associated equipment. Furthermore, Heritage Consultants, llc's archeological review, dated January 28, 2014, concluded that "Given the environmental conditions with the APE, it is the professional opinion of Heritage Consultants that the proposed tower location and access road/buried utility easement contain little, if any, possibility to yield intact cultural deposits.

Based on the information provided to this office, SHPO concurs that no historic properties will be affected by this project.

The State Historic Preservation Office appreciates the opportunity to review and comment upon this project. These comments are provided in accordance with the Connecticut Environmental Policy Act and Section 106 of the National Historic Preservation Act. For further information please contact Todd Levine, Environmental Reviewer, at (860) 256-2759 or todd.levine@ct.gov.

Sincerely,

Daniel T. Forrest
State Historic Preservation Officer
