: APRIL 2015

APPLICATION TO INTERVENE UNDER CEPA, §4-177a AND §16-50n

Codfish Hill Environmental Trust, a voluntary association, hereby moves and petitions the Connecticut Siting Council to become a party intervenor in the above application by North Atlantic Towers, LLC, ("North Atlantic"), for a certificate of environmental compatibility and public need for a telecommunications facility at 62-64 Codfish Hill Road, Bethel, Connecticut. The purpose of the intervention is to participate in these proceedings to prevent unreasonable impact to the natural resources of the State including scenic vistas so that evidence of alternative location(s) and/or configurations and technology of lesser visual impact may be entered into the record.

Pursuant to Conn.Gen.Stat. §22a-19 ("CEPA"), §16-50n and §4-177a, Codfish Hill Environmental Trust ("CHET"), is an entity which has a direct interest in the proceedings which will be specifically and substantially affected as it is a voluntary association consisting of taxpayers and citizens of the Town of Bethel within the viewshed of the proposed facility. The members of the group are likely to suffer property value loss different from and greater than that of the public in general due to the proximity of the facility to their homes.

Intervenor seeks party status in the above proceedings for the purpose of submitting testimony, briefs and other evidence relevant to the consideration of the application under consideration; specifically the mitigation of environmental impact to scenic vistas by the use of alternate locations, alternative technology and tower configurations.

Intervenor's participation will be in the interests of justice and is proper under CEPA in that the evidence and testimony to be given will tend to show that the proposed activity for which Applicant seeks a certificate is likely to unreasonably harm the public trust in the air, water or other natural resources of the State of Connecticut in that, if granted, the proposed facility will, inter alia, unreasonably impair the visual quality of the environment in and about the Codfish Hill Road area; and is reasonably likely to cause viewshed deterioration that is unreasonable because at least one feasible alternative solution of lesser impact for providing adequate coverage exists.

In support of this application, the movant states the following:

Codfish Hill Environmental Trust is a duly constituted Connecticut voluntary association with members who enjoy the scenic views in and about the area of the proposed facility on Codfish Hill Road. The members include, but are not limited to: Mark Reinders and Gillean Reinders and Leon Kurjiaka residing at Codfish Hill Road, Bethel and Gordana Bogdan, Sue White, Caryl Kirschbaum and Lada Bedriy residing at Twin Maples Drive, Bethel.

The proposed tower will have a negative impact on the scenic vistas in Bethel and specifically on Codfish Hill Road, Hillside Court, Dodgingtown Road, Twin Maple Drive and Windaway Roads.

There exists an alternative means of providing adequate coverage by utilizing combined antenna technology and configurations, including micro cells and

closer than 10ft spacing between carrier arrays, and lower heights to achieve adequate coverage.

CHET intends to submit evidence to the record in the form of expert and fact witness testimony which will substantiate the feasibility of available alternatives to the proposed facility of lesser visual impact including a shorter tower

relocated on the proposed premises at 62-64 Codfish Hill Road which will assist the Council in complying with its mandate to minimize impact as required by C.G.S §16-50g and 16-50p(3)(G)(b)(1).

The design does not incorporate the best available technology for reducing the visual impacts of the facility in that it fails to consider, antenna combining technology, closer spacing, close mounting and other stealth techniques, including multiple shorter antenna structures to cover the target area.

DISCUSSION OF LAW

The Council must be mindful of the statutory requirements which apply to interventions under CEPA. The bar is quite low for filing an intervention and thus §22a-19 applications should not be lightly rejected. Finley v. Town of Orange, 289 Conn. 12 (2008) (an application need only allege a colorable claim to survive a motion to dismiss) citing Windels v. Environmental Protection Commission, 284 Conn. 268 (2007).

CEPA clearly and in the broadest terms indicates that any legal entity may intervene. This includes municipal officials, Avalon Bay Communities v. Zoning Commission, 87 Conn. App. 537, 867 A.2d 37 (2005).

An allegation of facts that the proposed activity at issue in the proceeding is likely to unreasonably impair the public trust in natural resources of the State is sufficient. See, Cannata v. Dept. Of Environmental Protection, et al, 239 Conn. 124 (1996)(alleging harm to floodplain forest resources).

The Connecticut Appellate Court has noted that statutes "such as the EPA are

§ 22a-19 became a party to an administrative proceeding upon doing so and had "statutory standing to appeal for the limited purpose of raising environmental issues." "It is clear that one basic purpose of the act is to give persons standing to bring actions to protect the environment." Belford v. New Haven, 170 Conn. 46, 53-54, 364 A.2d 194 (1975).

The Intervenor is entitled to participate as a §22a-19 intervenor which allows for a right of appeal under that statute. Committee to Save Guilford Shoreline, Inc. v. Guilford Planning & Zoning Commission, 48 Conn. Sup. 594, 853 A.2d 654(2004) once any entity has filed for intervention in an administrative proceeding, it has established the right to appeal from that decision independent of any other party. Mystic Marinelife Aquarium v. Gill, 175 Conn. 483 (1978) stated quite clearly that "one who files a §22a-19 application becomes a party with statutory standing to appeal." Branhaven Plaza, LLC v Inland Wetlands Commission of the Town of Branford, 251 Conn. 269, 276, n.9 (1999) held that a party who intervenes in a municipal land use proceeding pursuant to §22a-19 has standing to appeal the administrative agency's decision to the Superior Court. The Court cited as support for this proposition, Red Hill Coalition, Inc. v. Conservation Commission, 212 Conn. 710, 715, 563 A.2d 1339 (1989)("because the [appellants] filed a notice of intervention at the commission hearing in accordance with §22a-19(a), it doubtless had statutory standing to appeal from the commission's decision for that limited purpose.")

In Keiser v. Zoning Commission, 62 Conn. App. 600, 603-604 (2001) our Appellate Court stated that the Branhaven Plaza case is directly on point and held "the plaintiff in the present case properly filed a notice of intervention at the zoning commission hearing in accordance with §22a-19(a). Accordingly, we conclude that he has standing to appeal environmental issues related to the zoning commission's decision."

The rights conveyed by CEPA are so important and fundamental to matters of public trust that the denial of a 22a-19 intervention itself is appealable. See, CT Post Limited Partnership v. New Haven City Planning Commission, 2000 WL

1161131 Conn. Super. (Hodgson, J. 2000)(§22a-19 intervenors may file an original appeal for improper denial of intervenor status).

Intervenors' application for intervenor status should be granted so that it may participate by presenting evidence for the record and meaningfully assist the Siting Council in reaching a decision which minimizes impact to natural resources of the state while providing adequate coverage for wireless telecommunications.

VERIFICATION

The undersigned, Mark Reinders, duly authorized coordinator of Codfish Hill Environmental Trust, duly sworn, hereby verifies that the above application is true and accurate to the best of his knowledge and belief.

Mark Reinders

Sworn and subscribed before me this 13 th day of April, 2015.

Notary Public; My Commission Expires July 31, 2019
