Hartford, CT 06141-0270

RE: **DOCKET NO. 461A** - Eversource Energy Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a 115-kilovolt (kV) bulk substation located at 290 Railroad Avenue, Greenwich, Connecticut, and two 115-kV underground transmission circuits extending approximately 2.3 miles between the proposed substation and the existing Cos Cob Substation, Greenwich, Connecticut, and related substation improvements. 115-kV Double Circuit Underground Transmission Lines Development and Management Plan.

Dear Ms. Shanley:

The Connecticut Siting Council (Council) received the partial Development and Management (D&M) Plan specific to the underground 115-kV transmission line portion of the Greenwich Substation and Line Project on October 5, 2018. Section 16-50j-75(d) of the Regulations of Connecticut State Agencies, entitled, "Timing of plan" states: "The D&M plan shall be submitted to the Council, and the Council shall approve, modify, or disapprove the plan within 60 days after receipt of it..."

The current deadline for the Council to approve, modify, or disapprove the partial D&M Plan submitted for this facility is December 4, 2018. Due to the complex nature of this plan, the Council will need additional time to review the D&M Plan. The Council hereby requests an extension of the D&M Plan decision deadline for Docket No. 461A until February 2, 2019.

We thank you in advance for your timely response to this matter.

Sincerely,

Melanie A. Bachman
Executive Director
