P.O. Box 270
Hartford, CT 06141-0270

RE: **DOCKET NO. 461A** - Eversource Energy Certificate of Environmental Compatibility and Public Need for the construction, maintenance, and operation of a 115-kilovolt (kV) bulk substation located at 290 Railroad Avenue, Greenwich, Connecticut, and two 115-kV transmission circuits extending approximately 2.3 miles between the proposed substation and the existing Cos Cob Substation, Greenwich, Connecticut, and related substation improvements.

Dear Ms. Bellion:

Pursuant to Regulations of Connecticut State Agencies §16-50j-62 (b) and in response to your email of December 16, 2019, the Connecticut Siting Council (Council) staff hereby approves a temporary change to the Development and Management (D&M) Plan for three additional work hours today (7 PM to 10 PM) that are necessary to complete control house equipment off-loading prior to forecasted inclement weather. All off-loading work will be performed within the boundaries of the Greenwich Substation site.

This approval applies only to the temporary additional work hours requested in your email of December 16, 2019. Any additional changes to the D&M Plan require advance notification and approval in accordance with the Council's approval of the D&M Plan on March 29, 2019. Furthermore, the Certificate Holder is responsible for reporting requirements pursuant to Regulations of Connecticut State Agencies Section 16-50j-62.

Please be advised that deviations from this plan are enforceable under the provisions of the Connecticut General Statutes § 16-50u.

Thank you for your attention and cooperation.

Sincerely,

Melanie Bachman
Executive Director

Subject: Docket 461A: Greenwich Substation and Line Project, Greenwich Substation D&M Plan, Request for extended work hours to complete control enclosure equipment delivery/off-loading on substation site

Dear Ms. Bachman:

On November 1, 2019, the Connecticut Siting Council (CSC) staff approved Eversource's request for extended work hours for the delivery and installation of large substation equipment, including the control enclosure. The approved work hours for the control enclosure delivery and installation were 7 AM to 7 PM the week of December 16, 2019.

The control enclosure (transported by two large trucks) was delivered to the site early this afternoon, after being delayed in route due to unanticipated inclement weather and the need to wait at the Connecticut state line for a CT State Police escort.

To complete the control house equipment off-loading today, before the majority of inclement weather forecast for later this evening / tomorrow arrives, Eversource seeks Council staff approval to work 3 additional hours today (7 PM to 10 PM). All the off-loading work will be performed within the boundaries of the substation site.

Eversource has consulted with representatives of the Town of Greenwich regarding this extended work hour request.

Should you have any questions about this request, please do not hesitate to contact me.
