Robert Stein, Chairman
Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

Re: Docket 461A: Greenwich Substation and Line Project

Dear Chairman Stein:

As explained in detail in the Supplemental Testimony of Kenneth B. Bowes, filed today, the Connecticut Department of Transportation has informed the Applicant that it will not grant a license for construction within the Metro-North Railroad right-of-way of the overhead transmission line segment of the Proposed Modified Project described in Eversource's Petition for Reconsideration (Motion). Accordingly, construction of the Proposed Modified Project is not feasible, so that Eversource must, and hereby does, withdraw its request that the Council issue a Certificate of Environmental Compatibility and Public Need (Certificate) for that project. Eversource's Motion, as filed, sought a certificate for either the Proposed Modified Project or for the Alternate Modified Project, with such modifications and variations as the Council may determine are required by or consistent with the Public Utilities Environmental Standards Act. Therefore, Eversource's request is now limited to the issuance of a Certificate for the Alternate Modified Project, with any variations or modifications found by the Council to be appropriate.

Very truly yours,

Anthony M. Fitzgerald
