Re: **Docket No. 463A – American Towers, LLC and New Cingular Wireless PCS, LLC Amended Application for a Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance, and Operation of a Telecommunications Facility Located at 351A Boston Post Road, East Lyme, Connecticut or at an Alternative Site Located at 2 Arbor Crossing, East Lyme, Connecticut Pursuant to Connecticut General Statutes §4-181a(a)**

Dear Ms. Bachman:

I write regarding my client's interest in the proposed telecommunications facility referenced above. While Cellco Partnership d/b/a Verizon Wireless ("Cellco") does not currently have a lease agreement in place with the applicant for use of this facility, it is interested in sharing the facility once approved and constructed.

Cellco's RF Engineers have performed a preliminary assessment of the area around the proposed facility and determined that it would like to install antennas at the highest available location on the structure, which, we understand to be 75 feet above ground level.

Thank you.

Sincerely,

Kenneth C. Baldwin
