Re: **Homeland Towers, LLC – Proposed Telecommunications Facility at 515 Morehouse Road, Easton, Connecticut**

Dear «Salutation»:

Homeland Towers, LLC and Cellco Partnership d/b/a Verizon Wireless (“Cellco”) will be submitting an application to the Connecticut Siting Council (“Council”) on or about April 21, 2017, for approval of the construction of a telecommunications facility in the Town of Easton, Connecticut.

The proposed facility would consist of a new 150-foot monopine tower in the southerly portion of an approximately 104.41-acre parcel at 515 Morehouse Road in Easton. Faux branches will extend to a height of 157 feet. Cellco will install twelve (12) antennas and nine (9) remote radio heads at the 145-foot level on the tower. Radio equipment associated with Cellco’s antennas, a battery cabinet and a diesel-fueled generator would be installed on a steel platform with a canopy near the base of the tower. Access to the facility would extend from Morehouse Road along an existing bituminous/gravel driveway, then along a new gravel driveway extension, a total distance of approximately 1,965 feet to the cell site. Site plan drawings for the proposed facility are attached for your review. The location and other features of the proposed facilities are subject to change under the provisions of Connecticut General Statutes § 16-50g et seq.

State law provides that owners of record of property which abuts a parcel on which a facility is proposed to be located must receive notice of the submission of this application. This notice is directed to you either because you may be an abutting land owner or as a courtesy notice.

April 18, 2017  
Page 2

If you have any questions concerning the application, please direct them to either the Connecticut Siting Council or me. My address and telephone number are listed above. The Siting Council may be reached at its New Britain, Connecticut office at (860) 827-2935.

Very truly yours,

A handwritten signature in black ink, appearing to read "Kenneth C. Baldwin". The signature is fluid and cursive, with a long horizontal stroke at the end.

Kenneth C. Baldwin

<b>ENGINEERING ANALYSIS AND CERTIFICATION</b>	
IN ACCORDANCE WITH THE 2018 CONNECTICUT STATE BUILDING CODE AND THE STANDARDS FOR STEEL ANTENNA TOWERS AND ANTENNA SUPPORT STRUCTURES FOR PARALLEL COUNTY, THE TOWER WOULD BE DESIGNED TO WITHSTAND WIND SPEEDS OF 110 MPH (150 MPH WIND SPEED AND 101 MPH WIND SPEED). THE FOUNDATION DESIGN WOULD BE BASED ON SOIL CONDITIONS AT THE SITE.
