RE: Docket No. 265A - Dominion Nuclear Connecticut, Inc. Application to Amend the Certificate of Environmental Compatibility and Public Need for the existing independent spent fuel storage installation at Millstone Power Station, Rope Ferry Road, Waterford, Connecticut.

Dear Attorney Baldwin:

The Connecticut Siting Council (Council) requests your responses to the enclosed questions no later than December 13, 2012. To help expedite the Council's review, please file individual responses as soon as they are available.

Please forward an original with 15 copies a .pdf file to this office. In accordance with the State Solid Waste Management Plan, the Council is requesting that all filings be submitted on recyclable paper, primarily regular weight white office paper. Please avoid using heavy stock paper, colored paper, and metal or plastic binders and separators. Fewer copies of bulk material may be provided as appropriate.

Yours very truly,

Linda Roberts
Executive Director

Docket 265A: Dominion Nuclear Connecticut, Inc.

Council Pre-Hearing Interrogatories

1. Has the loss of full core reserve capability for Unit 2 and Unit 3 changed since 2004? If so, please explain.
2. What is the number of Horizontal Storage Modules required for Unit 2 and Unit 3 to maintain full core reserve capability to the end of the renewal license period?
3. Has the proposed spent fuel loading schedule for each Unit changed since 2004? If so, provide a revised loading schedule for each Unit (# of Dry Storage Containers/ loading year).
4. Have the specifications for the Dry Storage Containers changed since 2004? If so, provide a description of the changes and an image of the new design.
5. Have the specifications of the Horizontal Storage Module changed since 2004? If so, provide a description of the changes and an image of the new design.
6. Describe current federal policy on spent nuclear fuel for decommissioned and active nuclear electric generating plants.
