

LEGAL NOTICE

Notice is hereby given of an Application to be submitted to the Connecticut Siting Council (“Council”) on or about October 31, 2012, by Dominion Nuclear Connecticut, Inc. (“DNC”) for certain modifications to the existing Independent Spent Fuel Storage Installation (“ISFSI”) at the Millstone Power Station (“Millstone”) in Waterford, Connecticut.

The ISFSI is located in the southerly portion of the approximately 520-acre Millstone property, adjacent to the existing power generating units. The proposed ISFSI modifications include, but are not limited to stormwater drainage modifications, the widening of the area adjacent to the ISFSI loading apron and the installation of all of the reinforced concrete pads needed to support a total of 135 Horizontal Storage Modules. Other features of the ISFSI are subject to change through the Council process under provisions of Connecticut General Statutes Section 16-50g, et seq.

Individuals interested in this proposal are invited to review the Siting Council submission during normal business hours at any of the following offices:
