

**LSE Canis Minor LLC
40 Tower Lane Suite 201
Avon, CT 06001**

1) A tabulation of estimated peak loads, resources and margins for each year.

The Facility has the capacity to generate 1.00 megawatts (MW) of electricity.

2) Data on energy use and peak loads for the five preceding calendar years.

The facility was placed in service in 2016.

During the time period of January 1 2016 to December 31 2016, the facility generated 0.27 megawatt hours of electricity.

During the time period of January 1 2017 to December 31 2017, the facility generated 1,896.7 megawatt hours of electricity.

During the time period of January 1 2018 to December 31 2018, the facility generated 1,910.6 megawatt hours of electricity.

During the time period of January 1 2019 to December 31 2019, the facility generated 1,729.5 megawatt hours of electricity.

During the time period of January 1 2020 to December 31 2020, the facility generated 1,725.9 megawatt hours of electricity.

During the time period of January 1, 2021 to December 31, 2021, the facility generated 1,677.1 megawatt hours of electricity.

During the time period of January 1, 2022 to December 31, 2022, the facility generated 1,845.8 megawatt hours of electricity.

3) A list of existing generating facilities in service.

LSE Canis Minor, located at 31 New Hartford Road, Barkhamsted, CT operates a solar facility with an approximately 1.00 MW output capacity and was approved locally by the towns of Barkhamsted and New Hartford since the anticipated output was below Siting Council jurisdictional thresholds.

4) A list of scheduled generating facilities for which property has been acquired, for which certificates have been issued and for which certificate applications have been filed.

None.

5) A list of planned generating units at plant locations for which property has been acquired, or at plant locations not yet acquired, that will be needed to provide estimated additional electrical requirements, and the location of such facilities.

None.

6) A list of planned transmission lines on which proposed route reviews are being undertaken or for which certificate applications have already been filed.

None.

7) A description of the steps taken to upgrade existing facilities and to eliminate overhead transmission and distribution lines in accordance with the regulations and standards described in section 16-50t.

None.

8) For each private power producer having a facility generating more than one megawatt and from whom the person furnishing the report has purchased electricity during the preceding calendar year, a statement including the name, location, size and type of generating facility, the fuel consumed by the facility and the by-product of the consumption.

Not Applicable.
