To: Electric Generating Facility Representatives

From: Melanie A. Bachman, Executive Director *MAB*

RE: **Connecticut Siting Council Review of the Ten-Year Forecast of Connecticut Electric Loads and Resources.** 2023 Forecast Reports – Electric Generating Facilities.

Pursuant to Connecticut General Statutes §16-50r, every person engaged in generating electric power in the state utilizing a *generating facility with a capacity greater than one megawatt, shall, annually on or before March 1st, file a report on a forecast of loads and resources* which may consist of an update of the previous year's report with the Connecticut Siting Council (Council) for its review.

The report shall include, as applicable:

- (1) A tabulation of estimated peak loads, resources and margins for each year;
- (2) data on energy use and peak loads for the five preceding calendar years;
- (3) a list of existing generating facilities in service;
- (4) a list of scheduled generating facilities for which property has been acquired, for which certificates have been issued and for which certificate applications have been filed;
- (5) a list of planned generating units at plant locations for which property has been acquired, or at plant locations not yet acquired, that will be needed to provide estimated additional electrical requirements, and the location of such facilities;
- (6) a list of planned transmission lines on which proposed route reviews are being undertaken or for which certificate applications have already been filed;
- (7) a description of the steps taken to upgrade existing facilities and to eliminate overhead transmission and distribution lines in accordance with the regulations and standards described in section 16-50t; and
- (8) for each private power producer having a facility generating more than one megawatt and from whom the person furnishing the report has purchased electricity during the preceding calendar year, a statement including the name, location, size and type of generating facility, the fuel consumed by the facility and the by-product of the consumption.

The Council respectfully requests a report be submitted by **March 31, 2023**, or in the alternative, submission of the contact information for the representative responsible for regulatory compliance at an electric generating facility in the state that is subject to the provisions of the statute.

Thank you for your attention in this matter.
