Docket No. 2016/2017

Robert Stein, Chairman
Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

Re: Docket No. 2016/2017 - Connecticut Siting Council Review of the Ten-Year Forecast of Connecticut Electric Loads and Resources – Somers Solar Center, LLC

Dear Chairman Stein:

Pursuant to the provisions of Section 16-50r of the Connecticut General Statutes, Somers Solar Center, LLC ("SSC") submits the attached report of its ten-year forecast of loads and resources. SSC is the owner of the Somers Solar Power Facility located in Somers, Connecticut. SSC is a wholly-owned, indirect subsidiary of Dominion Energy, Inc. In accordance with the Council's instructions, an original and 20 copies are enclosed.

Please contact Mr. Kevin R. Hennessy, Director - Federal, State & Local Affairs - New England at (860) 444-5656 with questions or if additional information is needed.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kelly S. Scott".

ATTACHMENT 1

Docket No. 2016/2017
Review of the Ten-Year Forecast of
Connecticut Electric Loads and Resources

SOMERS SOLAR POWER FACILITY
SOMERS SOLAR CENTER, LLC

STATE OF CONNECTICUT
CONNECTICUT SITING COUNCIL

IN RE : Docket No. 2016/2017
REVIEW OF THE TEN-YEAR FORECAST :
OF CONNECTICUT ELECTRIC LOADS :
AND RESOURCES :

February 22, 2016

REPORT OF FORECAST OF LOADS AND RESOURCES
SOMERS SOLAR CENTER, LLC

Pursuant to the provisions of Section 16-50r of the General Statutes, Somers Solar Center, LLC ("SSC"), the owner of the Somers Solar Power Facility (the "Facility"), hereby submits this report of its ten-year forecast of loads and resources. The Facility is a 4.999 MW AC solar photovoltaic power facility consisting of approximately 30,237 high efficiency solar panels.

(1) A Tabulation of Estimated Peak Load, Resources and Margins for Each Year

The Facility is SSC's sole power generating asset in the State of Connecticut. The Facility has the capacity to generate 4.999 net megawatts (MW) of electricity.

SSC, as a wholesale power producer, does not have a franchise territory within which it would estimate peak load requirements or margins for the period 2016 through 2027, and therefore, no such estimates are offered.

(2) Data on Energy Use and Peak Loads for the Five Preceding Calendar Years

The Facility began producing test power on December 18, 2013, and achieved full commercial operation on December 23, 2013. In the time period December 18, 2013 to December 31, 2013 (the portion of calendar year 2013 in which the facility was operational), the Facility generated 57.860 megawatt-hours of electricity for sale into the New England power grid.

In the time period January 1, 2014 to December 31, 2014, the Facility generated 8,438.748 megawatt-hours of electricity for sale into the New England power grid.

In the time period January 1, 2015 to December 31, 2015, the Facility generated 9,846.937 megawatt-hours of electricity for sale into the New England power grid.

All electricity produced by the Facility is sold to the Connecticut Light & Power Company through a 20-year Power Purchase Agreement.

(3) A List of Existing Generating Facilities in Service

The Facility is SSC's sole power generating asset in the State of Connecticut. The Facility has the capacity to generate 4.999 net megawatts (MW) of electricity.

(4) A List of Scheduled Generating Facilities For Which Property Has Been Acquired, For Which Certificates Have Been Issued, and For Which Certificate Applications Have Been Filed.

None.

- (5) **A List of Planned Generating Units at Plant Locations For Which Property Has Been Acquired, or at Plant Locations not Yet Acquired, That Will Be Needed to Provide Estimated Additional Electrical Requirements, and the Location of Such Facilities.**

None.

- (6) **A List of Planned Transmission Lines on Which Proposed Route Reviews Are Being Undertaken or For Which Certificate Applications Have Already Been Filed.**

None.

- (7) **A Description of the Steps Taken to Upgrade Existing Facilities and to Eliminate Overhead Transmission and Distribution Lines in Accordance with the Regulations and Standards Described in Section 16-50t.**

None.

- (8) **Private Power Producers**

Not applicable.

Respectfully submitted,

SOMERS SOLAR CENTER, LLC
