RE: **DOCKET NO. 3B** – The United Illuminating Company Amended Certificate of Environmental Compatibility and Public Need for replacement of a portion of the existing Derby – Shelton 115-kV electric transmission line facility. Reopening of this Certificate based on changed conditions pursuant to Connecticut General Statutes §4-181a(b) – **Compliance with Condition No. 1 of Partial D&M Plan II.**

Dear Attorney McDermott:

The Connecticut Siting Council (Council) is in receipt of correspondence dated November 20, 2024 regarding compliance with Condition No. 1 of the Council's Partial Development and Management (D&M) Plan II approval dated July 21, 2023 that identifies 8-10 Riverside Drive, Ansonia as an additional laydown area including provisions for erosion and sedimentation controls for such laydown area, for the above-referenced facility.

The Council acknowledges that Condition No. 1 of Partial D&M Plan II has been satisfied. This acknowledgment applies only to the Partial D&M Plan II condition satisfied by the November 20, 2024 correspondence. Requests for any changes to the D&M Plan shall be approved by Council staff in accordance with Regulations of Connecticut State Agencies (RCSA) §16-50j-62(b).

Please be advised that deviations from the Council's Decision & Order and D&M Plan approvals are enforceable under the provisions of Connecticut General Statutes § 16-50u. Furthermore, the Certificate Holder is responsible for reporting requirements pursuant to RCSA §16-50j-62.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman  
Executive Director

**Re: Docket No. 3B - The United Illuminating Company Application for a Certificate of Environmental Compatibility and Public Need for the Derby Junction to Ansonia 115-KV Transmission Line Rebuild Project – Notice of Additional Laydown Area**

Dear Ms. Bachman:

Pursuant to the Regulations of Connecticut State Agencies Section 16-50j-62(b)(2) and the project's Development & Management Plan approved July 20, 2023, The United Illuminating Company ("UI") notifies the Council that an additional construction laydown area has been designated for the Project.

The additional Laydown yard will be located at 8-10 Riverside Drive, in the City of Ansonia. The Laydown area is shown on the attached image. If additional laydown yards are identified, UI will notify the council accordingly.

The Company's Erosion and Sediment Control ("E&SC") plan will utilize Best Management Practices and proper controls as required throughout the duration of the Company's use of the Laydown property. The Company does not believe that the location will require significant E&SCs since the property will be mostly milled/paved during the project. The property will not be used as a soil stockpile area and no subsurface disturbance is expected. The Company's E&SC controls will include:

- The installation and maintenance of inlet protection for all drainage on site, if needed.
- The use of dust control measures, if needed (i.e., water trucks). Equipment brought to and stored at the laydown area will be cleaned free of invasive species prior to mobilization from the project sites.

Should the Council have any questions regarding this filing, please do not hesitate to contact me.

Very truly yours,

*Correne Auer*
