SECTION 1

TITLE AND AUTHORITY

- 1.1 The inland wetlands and watercourses of the State of Connecticut are an indispensable and irreplaceable fragile natural resource with which the citizens of the State have been endowed. The wetlands and watercourses are an interrelated web of nature essential to an adequate supply of surface and underground water; to hydrological stability and control of flooding and erosion; to the recharging and purification of groundwater; and to the existence of many forms of animal, aquatic and plant life.

Many inland wetlands and watercourses have been destroyed, or are in danger of destruction, because of unregulated use by reason of the deposition, filling or removal of material, the diversion or obstruction of water flow, the erection of structures and other uses all of which have despoiled, polluted and eliminated wetlands and other watercourses. Such unregulated activity has had, and will continue to have, a significant adverse impact on the environment and ecology of the State of Connecticut and has, and will continue to imperil, the quality of the environment thus adversely affecting the ecological, scenic, historic and recreational values and benefits of the State for its citizens now and forever.

The preservation and protection of the wetlands and watercourses from random, unnecessary, undesirable and unregulated uses, disturbance or destruction is in the public interest and is essential to the health, welfare and safety of the citizens of the State.

It is, therefore, the purpose of these regulations to protect the citizens of the State by making provisions for the protection, preservation, maintenance and use of the wetlands and watercourses by minimizing their disturbance and pollution; maintaining and improving water quality in accordance with the highest standards set by federal, state or local authority; preventing damage from erosion, turbidity or siltation; preventing loss of fish and other beneficial aquatic organisms, wild life and vegetation and the destruction of the natural habitats thereof; deterring and inhibiting the danger of flood and pollution; protecting the quality of wetlands and watercourses for their conservation, economic, aesthetic, recreational and other public and private uses and values; and protecting the State's potable fresh water supplies from the dangers of drought, overdraft, pollution, misuse and mismanagement by providing an orderly process to balance the need for the economic growth of the state and the

use of its land with the need to protect its environment and ecology in order to forever guarantee to the people of the State, the safety of such natural resources for their benefit and enjoyment and for the benefit and enjoyment of generations yet unborn.

- 1.2 These regulations shall be known as the "Inland Wetlands and Watercourses Regulations of the Town of Trumbull."
- 1.3 The Inland Wetlands and Watercourses Commission of the Town of Trumbull was established in accordance with an ordinance adopted April 13, 1974 and shall implement the purposes and provisions of these regulations and the Inland Wetlands and Watercourses Act in the Town of Trumbull.
- 1.4 These regulations have been adopted and may be amended, from time to time, in accordance with the provisions of the Inland Wetlands and Watercourses Act and these regulations.

The Agency shall enforce all provisions of the Inland Wetlands and Watercourses Act and shall issue, issue with modifications, or deny permits for all regulated activities on inland wetlands and watercourses in the Town of Trumbull pursuant to Sections 22a-36 to 22a-45, inclusive, of the Connecticut General Statutes, as amended.

SECTION 2

DEFINITIONS

2.1 As used in these regulations:

"Act" means the Inland Wetlands and Watercourses Act, Sections 22a-36 through 22a-45 inclusive of the General Statutes, as amended.

"Agency" means the Inland Wetlands and Watercourses Commission of the Town of Trumbull.

"Bogs" are areas distinguished by evergreen trees and shrubs underlain by peat deposits, poor drainage, and highly acidic conditions.

"Clear-cutting" means the harvest of timber in a fashion which removes all trees down to a two inch diameter at breast height.

"Commission member" means a member of the Inland Wetlands and Watercourses Commission of the Town of Trumbull.

"Commissioner of Environmental Protection" means the Commissioner of the State of Connecticut Department of Environmental Protection.

"Continual Flow" means a flow of water which persists for an extended period of time; this flow may be interrupted during periods of drought or during the low flow period of the annual hydrological cycle, June through September, but it recurs in prolonged succession.

"Deposit" includes, but shall not be limited to fill, grade, dump, place, discharge or emit.

"Designated agent" means an individual (s) designated by the agency to carry out its functions and purposes.

"Discharge" means emission of any water, substance, or material into wetlands or watercourses whether or not such substance causes pollution.

"Disturb the natural and indigenous character of the wetland or watercourse" means to alter the inland wetlands and watercourses by reason of removal or deposition of material, clearing the land, alteration or obstruction of water flow, or will result in the pollution of the wetland or watercourse.

"Essential to the Farming Operation" means that the activity proposed is necessary and indispensable to sustain farming activities on the farm.

"Farming" means use of land for the growing of crops, raising of livestock or other agricultural use.

"Feasible" means able to be constructed or implemented consistent with sound engineering principles.

"Management practice" means a practice, procedure, activity, structure or facility designed to prevent or minimize pollution or other environmental damage or to maintain or enhance existing environmental quality. Such management practices include, but are not limited to: erosion and sedimentation controls; restrictions on land use or development; construction setbacks from wetlands or watercourses; proper disposal of waste materials; procedures for equipment maintenance to prevent fuel spillage; construction methods to prevent flooding or disturbance of wetlands and watercourses; procedures for maintaining continuous stream flows; confining construction that must take place in watercourses to times when water flows are low and fish and wildlife will not be adversely affected.

"License" means that whole or any part of any permit, certificate of approval or similar form of permission, which may be required of any person by the provisions of these regulations under the authority of the Inland Wetlands Agency.

"Marshes" are areas with soils that exhibit aquatic moisture regimes and are distinguished by the absence of trees and shrubs and are dominated by soft-stemmed herbaceous plants. The water table in marshes is at or above the surface throughout the year, and areas of open water six inches or more in depth are common, but seasonal fluctuations are encountered.

"Material" means any substance, solid or liquid, organic or inorganic, including but not limited to: soil, sediment, aggregate, land, gravel, clay, bog, peat, mud, debris, sand, refuse or waste.

"Municipality" means the Town of Trumbull.

"Nurseries" means land used for propagating trees, shrubs or other plants for transplanting, sale, or for use as stock for grafting.

"Permit" means the whole or any part of any license, certificate or approval or similar form of permission which may be required of any person by the provisions of these regulations and the Act or other municipal, state and federal law.

"Permittee" means the person to whom such permit has been issued.

"Person" means any person, firm, partnership, association, corporation, company, organization or legal entity of any kind, including municipal corporations, governmental agencies or subdivisions thereof.

"Pollution" means harmful thermal effect or the contamination or rendering unclean or impure of any waters of the State by reason of any waste or other materials discharged or deposited therein by any public or private sewer or otherwise so as directly or indirectly to come in contact with any waters. This includes, but is not limited to, erosion and sedimentation resulting from any filling, land clearing or excavation activity.

"Prudent" means economically and otherwise reasonable in light of the social benefits to be derived from regulated activity provided cost may be considered in deciding what is prudent and further provided a mere showing of expense will not necessarily mean an alternative is imprudent.

"Regulated Activity" means any operation within or use of a wetland or watercourse involving removal or deposition of material, or any obstruction, construction, alteration or pollution, of such wetlands or watercourses, and any earth moving, filling, construction, or clear-cutting trees, etc. within 100 feet of wetland or watercourses, but shall not include the specified activities in Section 4 of these regulations.

"Regulated area" means any wetlands or watercourses as defined in these regulations.

"Remove" includes, but shall not be limited to, drain, excavate, mine, dig, dredge, suck, grub, clear cut timber, bulldoze, dragline or blast.

"Rendering unclean or impure" means any alteration of the physical, chemical or biological properties of any waters of the State, including, but not limited to, change in odor, color, turbidity or taste.

"Significant impact activity" means any activity, including, but not limited to, the following activities which may have a major effect or significant impact on the area for which an application has been filed or on another part of the inland wetland or watercourse system:

1. Any activity involving a deposition or removal of material which will or may have a major effect or significant impact on the regulated area or on another part of the inland wetland or watercourse system; or
2. Any activity which substantially changes the natural channel or may inhibit the natural dynamics of a watercourse system; or
3. Any activity which substantially diminishes the natural capacity of an inland wetland or watercourse to support desirable fisheries, wildlife, or other biological life; or to prevent flooding, supply water, assimilate waste, facilitate drainage, provide recreation or open space; or to perform other functions; or
4. Any activity which is likely to cause or has the potential to cause substantial turbidity, siltation or sedimentation in a wetland or watercourse, or
5. Any activity which causes a substantial diminution of flow of a natural watercourse or groundwater levels of the regulated area; or
6. Any activity which is likely to cause or has the potential to cause pollution of a wetland or watercourse, or
7. Any activity which damages or destroys unique wetland or watercourse areas or such areas having demonstrable scientific or educational value.

"Soil Scientist" means an individual duly qualified in accordance with standards set by the Federal Office of Personnel Management.

"Swamps" are areas with soils that exhibit aquic moisture regimes and are distinguished by the dominance of wetland trees and shrubs.

"Submerged lands" means those lands which are inundated by water on a seasonal or more frequent basis.

"Town" means the Town of Trumbull.

"Waste" means sewage or any substance, liquid, gaseous, solid or radioactive, which may pollute or tend to pollute any of the wetlands or watercourses of the Town.

"Watercourses" means rivers, streams, brooks, waterways, lakes, ponds, marshes, swamps, bogs, and all other bodies of water, natural or artificial, vernal

or intermittent, public or private, which are contained within, flow through or border upon the Town or any portion thereof not regulated pursuant to Sections 22a-28 through 22a-35 inclusive of the Connecticut General Statutes. Intermittent watercourses shall be delineated by a defined permanent channel and bank and the occurrence of two or more of the following characteristics: (a) evidence of scour or deposits of recent alluvium or detritus, (b) the presence of standing or flowing water for a duration longer than a particular storm incident, and (c) the presence of hydrophylic vegetation.

"Wetlands" means land, including submerged land not regulated pursuant to Sections 22a-28 through 22a-35, inclusive, which consists of any of the soil types designated as poorly drained, very poorly drained, alluvial and floodplain by the National Cooperative Soils Survey, as amended from time to time, of the Natural Resources Conservation Service of the United States Department of Agriculture.

SECTION 3

INVENTORY OF REGULATED AREAS

- 3.1 The map of regulated areas entitled "Inland Wetlands and Watercourses Map, Trumbull, Connecticut" delineates the general location and boundaries of wetlands and the general location of watercourses. Copies of this map are available for inspection at the office of the Town Clerk or the Agency. In all cases, the precise location of regulated areas shall be determined by the actual character of the land, the distribution of wetland soil types and location of watercourses. The Agency may use aerial photography, remote sensing imagery, resource mapping, soil maps, site inspection observations or other information in determining the location of the boundaries of wetlands and watercourses.
- 3.2 Any owner who disputes the designation of any part of his or her land as a regulated area on the Inland Wetlands and Watercourses Map, may petition the Agency to change the designation in accordance with Section 14 of these regulations. All petitions for a map change shall be submitted in writing and shall include all relevant facts and circumstances which support the change. The petitioner shall provide proof that the designation is inapplicable. The Agency may require such an owner to provide an accurate delineation of regulated areas in accordance with Section 14 of these regulations.
- 3.3 The Agency or its designated agent(s) shall maintain a current inventory of regulated areas within the town. The Agency may amend its map as more accurate information becomes available. Any person may petition for an amendment of the map. Petitioners shall bear the burden of proof for all requested map amendments. Such proof may include, but not be limited to, aerial photography, remote sensing imagery, resource mapping or other available information. Such map amendments are subject to the public hearing process outlined in Section 14 of these regulations.

SECTION 4

PERMITTED USES AS OF RIGHT & NONREGULATED USES

- 4.1 The following operations and uses shall be permitted in inland wetlands and watercourses, as of right:
- a. Grazing, farming, nurseries, gardening and harvesting of crops and farm ponds of three acres or less essential to the farming operation, and activities conducted by, or under authority of, The Department Of Environmental Protection for the purposes of wetland or watercourse restoration or enhancement or mosquito control. The provisions of this subdivision not be construed to include road construction or the erection of buildings not directly related to the farming operation, relocation of watercourses with continual flow, filling or reclamation of wetlands or watercourses with continual flow, clear cutting of timber except for the expansion of agricultural crop land, or the mining of top soil, peat, sand, gravel or similar material from wetlands or watercourses for the purposes of sale;
 - b. a residential home (i) for which a building permit has been issued or (ii) on a subdivision lot, provided the permit has been issued or the subdivision has been approved by a municipal planning, zoning or planning and zoning commission as of the effective date of promulgation of the municipal regulations pursuant to subsection (b) of Section 22a-42a, or as of July 1, 1974, which ever is earlier, and further provided no residential home shall be permitted as of right pursuant to this subdivision unless the building permit was obtained on or before July 1, 1987. Any person claiming a use of wetlands permitted as a right under this subdivision shall document the validity of said right by providing a certified copy of the building permit and a site plan showing proposed and existing topographic contours, house and well locations, septic system, driveway, approval dates or other necessary information to document his or her right hereunder;
 - c. boat anchorage or mooring, not to include dredging or dock construction;
 - d. uses incidental to the enjoyment or maintenance of residential property, such property defined as equal to or smaller than the largest minimum residential lot site permitted anywhere in the municipality (provided that in any town where there are no zoning regulations establishing minimum residential lot sites, the largest minimum lot site shall be two acres) and containing a residence. Such incidental uses shall include maintenance of existing structures and landscaping, but shall not include removal or deposition of significant amounts of material from or into a wetland or watercourse, or diversion or alteration of a watercourse.

- e. Construction and operation, by water companies as defined by Section 16-1 of the Connecticut General Statutes or by municipal water supply systems as provided for in Chapter 102, of the Connecticut General Statutes, of dams, reservoirs and other facilities necessary to the impounding, storage and withdrawal of water in connection with public water supplies except as provided in Sections 22a-410 of the Connecticut General Statutes.
- f. maintenance relating to any drainage pipe which existed before the effective date of any municipal regulations adopted pursuant to section 22a-42a of the Connecticut General Statutes or July 1, 1974, which ever is earlier, provided such pipe is on the property which is zoned as residential but which does not contain hydrophytic vegetation. For purposes of this subdivision, "maintenance" means the removal of accumulated leaves, soil, and other debris whether by hand or machine, while the pipe remains in place.

4.2 The following operations and uses shall be permitted as nonregulated uses in wetlands and watercourses, provided they do not disturb the natural and indigenous character of the wetlands or watercourses by removal or deposition of material, alteration or obstruction of water flow or pollution of the wetland or watercourse:

- a. Conservation of soil, vegetation, water, fish, shellfish, and wildlife. Such operation or use may include, but is not limited to, minor work to control erosion, or to encourage proper fish, wildlife and silviculture management practices.
- b. Outdoor recreation including the use of play and sporting areas, golf courses, field trials, nature study, hiking, horseback riding, swimming, skin and scuba diving, camping, boating, water skiing, trapping, hunting, fishing and shell fishing and cross-country skiing where otherwise legally permitted and regulated.

4.3 All activities in wetlands or watercourses involving filling, excavating, dredging, clear cutting, clearing, or grading or any other alteration or use of a wetland or watercourse not specifically permitted by this section and otherwise defined as a regulated activity by these regulations shall require a permit from the Agency in accordance with Section 6 of these regulations

4.4 To carry out the purposes of this section, any person proposing to carry out a permitted or nonregulated operation or use of a wetland or watercourse that may disturb the natural and indigenous character of the wetland or watercourse shall, prior to commencement of such operation or use, notify the Agency on a form provided by it, and provide the Agency with sufficient information to enable it to properly determine that the proposed operation and use is a permitted or nonregulated use of the wetland or watercourse. The Agency or its designated agent shall rule that the proposed operation or use is a permitted or a nonregulated use or operation or that a permit is required. Such ruling shall be in writing and shall be made no later than the next regularly scheduled meeting of the Agency following the meeting at which the request was received. The designated agent for the Agency may make such ruling on behalf of the agency at any time.

SECTION 5

ACTIVITIES REGULATED BY THE STATE

- 5.1 In addition to any permit or approval required by the Agency, the Commissioner of Environmental Protection shall regulate activities in or affecting wetlands or watercourses subject to the following jurisdiction:
- a. Construction or modification of any dam pursuant to Sections 22a-401 through 22a-411 of the Connecticut General Statutes, as amended;
 - b. Construction, encroachment or placement of any obstruction within stream channel encroachment lines pursuant to Sections 22a-342 through 22a-349a of the Connecticut General Statutes, as amended;
 - c. Construction or placement of any structure or obstruction within the tidal, coastal or navigable waters of the State pursuant to Sections 22a-359 through 22a-363 or in designated tidal wetlands pursuant to Sections 22a-28 through 22a-35 of the Connecticut General Statutes.
 - d. Diversion of water, including withdrawals of surface or groundwater in excess of fifty thousand (50,000) gallons per day or any piping, culverting, channelization, relocation, damming or other alteration of the location of flow of any surface waters of the state where the tributary watershed area above the point of such alteration is 100 acres or larger, pursuant to sections 22a-365 through 22a-378a of the Connecticut General Statutes, as amended.
 - e. Discharges into the waters of the State pursuant to Section 22a-430 of the Connecticut General Statutes, as amended;
 - f. Discharge of fill or dredged materials into the wetlands and watercourses of the State pursuant to Section 401 of the Federal Clean Water Act, as amended, for activities regulated by the U.S. Army Corps of Engineers under Section 404 of the Federal Clean Water Act.
- 5.2 The Commissioner of Environmental Protection shall have exclusive jurisdiction over regulated activities in or affecting wetlands or watercourses, undertaken by any department, agency or instrumentality of the State of Connecticut, except any local or regional board of education, pursuant to sections 22a-39 or 22a-45a of the Connecticut General Statutes.

- 5.3 The Commissioner of Environmental protection shall have exclusive jurisdiction over tidal wetlands designated and regulated pursuant to Sections 22a-28 through 22a-35 of the Connecticut General Statutes.
- 5.4 The Commissioner of Environmental Protection shall have exclusive jurisdiction over activities authorized under a dam repair or removal order issued by the Commissioner of Environmental Protection under section 22a-402 or a dam construction permit issued by the Commissioner of Environmental Protection under sections 22a-403 or 22a-41 of the Connecticut General Statutes. Any person receiving such dam repair or removal order or dam construction permit shall not be required to obtain a permit from a municipal wetlands agency for any action necessary to comply with said dam order or to carry out the activities authorized by said dam permit.

SECTION 6

REGULATED ACTIVITIES TO BE LICENSED

- 6.1 No person shall conduct or maintain a regulated activity without first obtaining a permit for such activity from the Inland Wetland Commission of the Town of Trumbull.
- 6.2 Any person found to be conducting or maintaining a regulated activity without the prior authorization of the Agency, or violating any other provision of these regulations, shall be subject to the enforcement proceedings and penalties prescribed in Section 13 of these regulations and any other remedies as provided by law.

SECTION 7

APPLICATION REQUIREMENTS

- 7.1 Any person intending to conduct a regulated activity or to renew or amend a permit to conduct such activity, shall apply for a permit on a form provided by the Agency. The application shall contain the information described in this section and any other information the Agency may reasonably require. Application forms may be obtained in the offices of the Agency.
- 7.2 If an application to the Town of Trumbull Planning and Zoning Commission for subdivision or resubdivision of land involves land containing a wetland or watercourse, the applicant shall, in accordance with Section 8-3(g), 8-3c, 8-26, as applicable, of the Connecticut General Statutes, submit an application for a permit to the Agency in accordance with this section, no later than the day the application is filed with such planning and zoning commission.
- 7.3 All applications shall contain such information that is necessary for a fair and informed determination of the issues.
- 7.4 The Agency and the applicant may hold a pre-application meeting to determine whether or not the proposed application involves a significant activity.
- 7.5 All applications shall include the following information in writing or on maps or drawings:
- a. the applicant's name, home and business address and telephone numbers;
 - b. the owner's name, address and telephone number and written consent if the applicant is not the owner of the property involved in the application;
 - c. applicant's interest in the land;
 - d. the geographical location of the property which is to be affected by the proposed activity and a description of the land in sufficient detail to allow identification of the inland wetlands and watercourses, the area(s) (in acres or square feet) of wetlands or watercourses to be disturbed, soil type (s) and wetland vegetation;

- e. the purpose and a description of the proposed activity and proposed erosion and sedimentation controls and other management practices and mitigation measures which may be considered as a condition of issuing a permit for the proposed regulated activity including, but not limited to, measures to (1) prevent or minimize pollution or other environmental damage, (2) maintain or enhance existing environmental quality, or (3) in the following order of priority: restore, enhance and create productive wetland or watercourse resources;
- f. alternatives considered by the applicant;
- g. why the proposal to alter wetlands set forth in the application was chosen;
- h. a site plan showing the proposed activity and existing and proposed conditions in relation to wetlands and watercourses and identifying any further activities associated with, or reasonably related to, the proposed regulated activity which are made inevitable by the proposed regulated activity and which may have an impact on wetlands or watercourses;
- i. names and addresses of adjacent property owners and 500 foot radius map at a scale of 1" = 100';
- j. certification that the applicant is familiar with all the information provided in the application and is aware of the penalties for obtaining a permit through deception or through inaccurate or misleading information;
- k. authorization for the commissioners and agents of the Agency to inspect the property, at reasonable times, both before and after a final decision has been issued;
- l. a completed DEP reporting form; the Agency shall revise or correct the information provided by the applicant and submit the form to the Commissioner of Environmental Protection in accordance with Section 22a-39-14 of the Regulations of Connecticut State Agencies;
- m. any other information the Agency deems necessary to the understanding of what the applicant is proposing, or as required on the application form;
- n. submission of the appropriate filing fee based on the fee schedule established in Section 18 of these regulations.

7.6A If the proposed activity involves a significant impact activity as determined by the Agency, and defined in Section 2 of these regulations, additional information, based on the nature and anticipated effects of the activity, including but not limited to the following, is required:

- a. Site plans at a Scale of 1" = 40' for the proposed activity and the land which will be affected thereby which show existing and proposed conditions, wetland and watercourse boundaries, land contours, boundaries of land ownership, proposed alterations and uses of wetlands and watercourses, and other pertinent features of the land and the proposed activity, prepared by a professional engineer, land surveyor, architect or landscape architect licensed by the State of Connecticut, or by such other qualified person unless excepted by Inland Wetlands and Watercourses Commissioner or its Agent;
- b. engineering reports and analyses and additional drawings to fully describe the proposed activity including any filling, excavation, drainage or hydraulic modifications to watercourses and the proposed erosion and sedimentation control plan;
- c. mapping of soil types consistent with the categories established by the National Cooperative Soil Survey of the U.S. Natural Resources Conservation Service; the wetlands shall be delineated in the field by a soil scientist and the soil scientist's field delineation shall be depicted on the site plans;
- d. a description of the ecological communities and functions of the wetlands or watercourses involved with the application and the effects of the proposed activity on these communities and wetland functions;
- e. a description of how the applicant will change, diminish, or enhance the ecological communities and functions of the wetlands or watercourses involved in the application and each alternative, and a description of why each alternative considered was deemed neither feasible nor prudent;
- f. analysis of chemical or physical characteristics of any fill material; and
- g. management practices and other measures designed to mitigate the impact of the proposed activity.
- h. Existing contours at 2 foot intervals.

- i. Existing drainage patterns (direction, flow rates and volume) on the site and how the site fits into the overall drainage pattern of the watershed basin of which the site is a part.
- j. Description of vegetation in the regulated area including limits of existing tree cover. Assess impact on vegetation and include a description of any areas to be cleared.
- k. Existing roads, buildings and other man-made features.
- l. 100 year flood lines as established by the National Flood Insurance Program Maps for the Town of Trumbull.
- m. Locations of ledge and bedrock outcroppings.
- n. Locations of steep slopes (greater than 25%).
- o. Evaluations of the wetlands, watercourses and the 100' setback zones. Address the following functions in detail:
 - 1. Flood control effectiveness.
 - 2. Visual/esthetic quality.
- p. Proposed Alterations:
 - 1. Lot layouts.
 - 2. Locations of proposed buildings, septic systems, sewer lines, water lines and other utilities such as electric and telephone.
 - 3. Street layouts.
 - 4. Proposed contours and final grading plan.
- q. Impact to the site; the following must be covered:
 - 1. Changes to the existing contours.
 - 2. Describe how the existing natural features were considered in the design of the project.
 - 3. Show areas to be drained and the impact to the water table levels.

4. Changes to the estimated water runoff - include calculations to show anticipated runoff changes.
5. Areas that will be covered with an impervious surface and a description of that material.
6. Changes in the water quality as a result of the proposed project.
7. Changes in the incidence and duration of flooding on the site as well as the impact upstream and downstream from it.
8. Impacts to the wetlands, watercourses and the 100' setback zones
9. Feasible and prudent alternatives. Alternative plans must be presented in the same format as the basic plan and contain equivalent information;

* Other Noteworthiness:

Reference may be made to the D.E.P. Bulletin No. 9, "Method for the Evaluation of Inland Wetlands in Connecticut".

7.6(B) If the proposed activity involves a significant impact activity as determined by the Agency and defined in Section 2 of these regulations, additional information, based on the nature and anticipated effects of the activity, including but not limited to the following MAY BE required:

- a. Existing wetland and watercourse boundaries. The Agency may require the applicant to have the wetlands and watercourses delineated in the field by a licensed soil scientist with numbered flags and that the numbered flags be incorporated onto the site plans. The name and address of the soil scientist shall appear on the topographical map, along with a signed statement by the soil scientist that the mapped delineation of the wetlands is substantially correct.
- b. Reports including engineering analysis of proposed drainage modification or environmental study of the impact of the proposal on the ecological communities and functions of the wetlands and watercourses.
- c. Current water quality classification.
- d. Depth to the water table, approximate direction of flow, rate of flow and seasonal fluctuations

- e. Mapping of the soil types consistent with the categories established by the National Cooperative Soil Survey of the U.S. Conservation Service.
- f. Depth to bedrock in the area of alterations.
- g. Test pit information - show locations and include log of soil types and depth at which water table and bedrock were encountered and date of excavation.
- h. Evaluations of the wetlands, watercourses and 100' setback zones.
Address the following functions in detail:
 - 1. Ecological integrity.
 - 2. Wildlife habitat.
 - 3. Fish habitat.
 - 4. Nutrient retention and sediment trapping effectiveness.
 - 5. Educational potential.
 - 6. Water-based recreation suitability.
 - 7. Groundwater use potential.
 - 8. Existence of archeological sites.
- i. Proposed Alteration:
 - 1. Drainage systems.
 - 2. Erosion and sedimentation control plans.
 - 3. Boundaries of land proposed for dedication to the Town of Trumbull and Trumbull and Conservation Easements, if any, and locations of other required easements.
 - 4. Schedule of Development.
- j. Impact to the site; the following may need to be covered:
 - 1. Earth cuts and/or fills - show depth of cuts and /or fills in cross-sections, slope of cut or fill surfaces, erosion control measures, and sedimentation ponds.
 - 2. Provide an analysis of the chemical and physical characteristics of any proposed fill material.
 - 3. Drainage pattern changes - show how drainage areas and how patterns will change and how drainage system will operate and identify any required maintenance.

4. Mitigation efforts, including wetland enhancements, flood-control structures, and the avoidance of the diminution of wetland functions.
- k. Provide declaration that no other feasible and prudent alternative exists, other than those presented.

* Other Noteworthiness:

Reference may be made to the D.E.P Bulletin No. 9, "Method for the Evaluation of Inland Wetlands in Connecticut".

7.7 The applicant shall certify whether:

- a. Any portion of the property on which the regulated activity is proposed is located within 500 feet of the boundary of an adjoining municipality;
- b. Traffic attributable to the completed project on the site will use streets within the adjoining municipality to enter or exit the site;
- c. Sewer or water drainage from the project site will flow through an impact the sewage or drainage system within the adjoining municipality; or,
- d. Water run-off from the improved site will impact streets or other municipal or private property within the adjoining municipality.

7.8 Six copies of all application materials shall be submitted to comprise a complete application or as is otherwise directed, in writing, by the Agency, including map sets, reports, and completed application forms.

7.9 Any application to renew or amend an existing permit shall be filed with the Agency in accordance with Section 8 of these regulations at least sixty-five (65) days prior to the expiration date of the permit. Any application to renew or amend such an existing permit shall contain the information required under Section 7 of these regulations provided:

- a. the application may incorporate the documentation and record of the prior application;
- b. the application shall describe the extent of work complete at the time for filing and the schedule for completing the activities authorized in the permit.

- c the application shall state the reason why the authorized activity was not initiated or completed within the time specified in the permit;
- d the application shall describe any changes in facts or circumstances involved with or affecting wetland or watercourses or use of the land for which the permit was issued;
- e. the Agency may, prior to the expiration of a permit, accept an untimely application to renew such permit if the authorized activity is ongoing and allow the continuation of work beyond the expiration date if, in its judgment, the permit is likely to be renewed and the public interest or environment will be best served by not interrupting the activity;

7.10 Any application to renew a permit shall be granted upon request of the permit holder unless the Agency finds that there has been a substantial change in circumstances which requires a new permit application or an enforcement action has been undertaken with regard to the regulated activity for which the permit was issued provided no permit may be valid for more than ten years.

7.11 A reporting form shall be completed during the application process which provides the Commissioner of the Department of Environmental Protection with information necessary to properly monitor the inventory of State wetlands. The reporting form shall be part of the application and the following information shall be provided by the applicant: name of applicant; location and name of the project; project and site description; area of wetlands and/or linear feet of watercourse proposed to be altered. The Agency shall be responsible for the remaining information and any corrections on the form and for filing it in accordance with Section 22a-39-14 of the Inland Wetlands and Watercourses Regulations of the Department of Environmental Protection.

7.12 Notification of abutting property owners - Each applicant of the Wetlands Agency shall be required to notify all property owners within 75 feet of any property lines of the pending application. It shall be the responsibility of the applicant to prepare the list of said abutting property owners from the records of the Assessor's Office as shown on the last completed Grand List by determining the names and addresses of said property owners as measured on the most recently completed Assessor's Maps as are on file in the Assessor's Office. Said property owners shall be notified by the applicant by First Class Mail of the time and place of the Public Hearing at which said application shall be heard. Said notice letters shall be postmarked not less than fifteen (15) days prior to the scheduled date for said hearing. It shall be the applicant's responsibility to file with the Clerk of the Commission, prior to the close of the Public Hearing, a Certification of Mailing, provided by the Post Office, listing all of the property owners to whom notice has been sent.

SECTION 8

APPLICATION PROCEDURES

- 8.1 All applications shall be submitted to the Clerk of the Agency in the office of the Town Engineer.
- 8.2 In the case of any application where any portion of the wetland or watercourse on which the regulated activity is proposed is located within 500 feet of the boundary of Easton, Monroe, Shelton, Stratford, Bridgeport, or Fairfield, the applicant shall give written notice of the proposed activity, certified mail return receipt requested, to the adjacent municipal wetlands agency on the same day of filing an inland wetland permit application with the Trumbull Agency. Documentation of such notice shall be provided to the Trumbull Agency in accordance with Section 22a-42c of the Connecticut General Statutes.
- 8.3 The Agency shall, in accordance with Connecticut General Statutes Section 22a-42b, notify the Clerk of any adjoining municipality of the pendency of any application to conduct a regulated activity when:
- a. Any portion of the property on which the regulated activity is proposed is located within 500 feet of the boundary of an adjoining municipality, as identified in Section 8.2;
 - b. A significant portion of the traffic to the completed project on the site will use streets within the adjoining municipality to enter or exit the site;
 - c. A significant portion of the sewer or water drainage from the project site will flow through and significantly impact the sewage or drainage system within the adjoining municipality; or,
 - d. Water run-off from the improved site will impact streets or other municipal or private property within the adjoining municipality.

Notice of the pendency of such application shall be made by Certified Mail, Return Receipt Requested, and shall be mailed within seven (7) days of the Date of Receipt of the application.

- 8.4 When an application is filed to conduct or cause to be conducted a regulated activity upon an inland wetland or watercourse, any portion of which is within the watershed of a water company as defined in Section 16-1 of the Connecticut General Statutes, the applicant shall provide written notice of the applicant to the water company. The Bridgeport Hydraulic Company has filed a map

showing the boundaries for the watershed on the Land Records of the Town of Trumbull and with the Inland Wetlands Agency. Such notice shall be made by Certified Mail, Return Receipt Requested, and shall be mailed within seven (7) days of the date of the application. The Water Company, through a representative, may appear and be heard at any hearing on the application. Documentation of such notice shall be provided to the Agency.

- 8.5 The Date of Receipt of any application shall be the day of the next regularly scheduled meeting of the Agency immediately following the day of submission to the Agency, provided such meeting is no earlier than three (3) business days after submission, or thirty five (35) days after such submission, whichever is sooner.
- 8.6 At any time during the review period, the applicant shall provide such additional information as the Agency may reasonably require. Requests for such additional information shall not stay the time limitations as set forth in subsection 11.2 of these regulations.
- 8.7 All applications shall be open for public inspection.
- 8.8 Incomplete applications may be denied.

SECTION 9

PUBLIC HEARINGS

- 9.1 The Agency shall not hold a public hearing on an application unless the Agency determines that the proposed activity may have a significant impact on wetlands or watercourses, a petition signed by at least twenty-five persons requesting a hearing is filed with the Agency not later than fourteen days after the date of receipt of such application, or the Agency finds that a public hearing regarding such application would be in the public interest. The agency may issue a permit without a public hearing provided no petition provided for in this section is filed with the agency on or before the fourteenth day after the date of receipt of the application. Such hearing shall be held no later than sixty-five days after the receipt of such application. All applications and maps and documents relating thereto shall be open for public inspection. Any person may appear and be heard at any public hearing.
- 9.2 Notice of the public hearing shall be published at least twice at intervals of not less than two days, the first not more than fifteen (15) days and not fewer than ten (10) days, and the last not less than two (2) days before the date set for the hearing in a newspaper having a general circulation in each town where the affected wetland and watercourse is located.
- 9.3 Notice of the public hearing shall be mailed to the owner (s) of record of abutting land no less than fifteen (15) days prior to the day of the hearing (See Subsection 7.12)
- 9.4 In the case of any application which is subject to the notification provisions of subsection 8.3 of these regulations, a public hearing shall not be conducted until the Clerk of the adjoining municipality ((ies)) has received notice of the pendency of the application. Proof of such notification shall be entered into the hearing record.

SECTION 10

CONSIDERATIONS FOR DECISION

- 10.1 The Agency may consider the following in making its decision on an application :
- a. The application and its supporting documentation;
 - b. Public comments, evidence and testimony;
 - c. Reports from other agencies and commissions including but not limited to the Town of Trumbull:
 1. Conservation Commission
 2. Planning and Zoning Commission
 3. Building Official
 4. Health Officer
 5. Town Engineer
 - d. The Agency may also consider comments on any application from the Fairfield County Soil and Water Conservation District, the Greater Bridgeport or Valley Regional Planning Agency or other regional organizations (e.g. Council of Elected Officials); agencies in adjacent municipalities which may be affected by the proposed activity, or other technical agencies or organizations which may undertake additional studies or investigations.
 - e. Non-receipt of comments from agencies and commissions listed in subdivisions 10.1.c and d above within the prescribed time shall neither delay nor prejudice the decisions of the Agency.
- 10.2 Criteria for Decision. In carrying out the purposes and policies of Sections 22a-36 to 22a-45, inclusive, of the Connecticut General Statutes, including matters relating to regulating, licensing and enforcing of the provisions thereof, the Agency shall take into consideration all relevant facts and circumstances, including but not limited to:
- a. the environmental impact of the proposed regulated activity on wetlands or watercourses: Including the effects on the inland wetland's and watercourse's capacity to support fish and wildlife, to prevent flooding, to supply and protect surface and ground waters, to control sediment, to facilitate drainage, to control pollution, to support recreational activities, and to promote public health and safety.

- b. the applicant's purpose for, and any feasible and prudent alternatives to, the proposed regulated activity which alternatives would cause less or no environmental impact to wetlands or watercourses;
- c. the relationship between the short term and long term impacts of the proposed regulated activity on wetlands or watercourses and the maintenance and enhancement of long term productivity of such wetlands or watercourses;
- d. irreversible and irretrievable loss of wetland or watercourse resources which would be caused by the proposed regulated activity, including the extent to which such activity would foreclose a future ability to protect, enhance or restore such resources, and any mitigation measures which may be considered as a condition of issuing a permit for such activity including, but not limited to, measures to (1) prevent or minimize pollution or other environmental damage, (2) maintain or enhance existing environmental quality, or (3) in the following order of priority: restore, enhance and create productive wetland or watercourse resources;
- e. the character and degree of injury to, or interference with, safety, health or the reasonable use of property which is caused or threatened by the proposed regulated activity; and
- f. impacts of the proposed regulated activity on wetlands or watercourses outside the area for which the activity is proposed and future activities associated with or reasonably related to, the proposed regulated activity which are made inevitable by the proposed regulated activity and which may have an impact on wetlands or watercourses.

10.3 In the case of an application which received a public hearing pursuant to a finding by the Agency that the proposed activity may have a significant impact on wetlands or watercourses, a permit shall not be issued unless the Agency finds on the basis of the record that a feasible and prudent alternative does not exist. In making this finding the Agency shall consider the facts and circumstances set forth in subsection 10.2 of this section. The finding and the reasons therefore shall be stated on the record in writing.

10.4 In the case of an application which is denied on the basis of a finding that there may be feasible and prudent alternatives to the proposed regulated activity which have less adverse impact on wetlands or watercourses, the Agency shall propose on the record in writing, the types of alternatives which the applicant may investigate provided this subsection shall not be construed to shift the burden from the applicant to prove that he is entitled to the permit or to present alternatives to the proposed regulated activity.

- 10.5 In reaching its decision on any application after a public hearing, the Agency shall base its decision on the record of that hearing. Documentary evidence or other material not in the hearing record shall not be considered by the Agency in its decision. However, the Agency is not precluded from seeking advice from its own experts on information already in the record of the public hearing. A conclusion that a feasible and prudent alternative does not exist does not create a presumption that a permit should be issued. The applicant has the burden of demonstrating that his application is consistent with the purposes and policies of these regulations and Sections 22a-36 to 22a-45, inclusive, of the Connecticut General Statutes.

SECTION 11

DECISION PROCESS AND PERMIT

- 11.1 The Agency, or its duly authorized agent acting pursuant to Section 12 of these regulations, may, in accordance with Section 10 of these regulations, grant the application as filed or grant it upon other terms, conditions, limitations or modifications of the regulated activity designed to carry out the purposes and policies of the Act, or deny the application. Such terms may include any reasonable measures which would mitigate the impacts of the regulated activity and which would (a) prevent or minimize pollution or other environmental damage, (b) maintain or enhance existing environmental quality, or (c) in the following order of priority: restore, enhance and create productive wetland or watercourse resources.
- 11.2 No later than sixty five (65) days after receipt of an application, the Agency may hold a public hearing on such application. The hearing shall be completed within forty-five (45) days of its commencement. Action shall be taken on applications within thirty five (35) days after completion of a public hearing. In the absence of a public hearing, action shall be taken on applications within sixty five (65) days from the Date of Receipt of the application. The applicant may consent to one or more extensions of the periods specified in this subsection for the holding of the hearing and for action on such application, provided the total extension of any such period shall not be for longer than the original period as specified in this subsection, or may withdraw such application. The failure of the Inland Wetlands Agency to act within any time period specified in this subsection, or any extension thereof, shall not be deemed to constitute approval of the application. An application deemed incomplete by the Agency must either be withdrawn by the applicant or denied by the Agency.
- 11.3 The Agency shall state upon its record the reasons and bases for its decision and, in the case of any public hearing, such decision shall be based fully on the record of such hearing and shall be in writing and shall, as applicable and in accordance with Section 10 of these regulations, incorporate a statement relative to the consideration of feasible and prudent alternatives.
- 11.4 The Agency shall notify the applicant and any person entitled to such notice of its decision within fifteen (15) days of the date of the decision by certified mail, return receipt requested, and the Agency shall cause notice of its order in the issuance or denial of the permit, to be published in a newspaper having general circulation in the town wherein the inland wetland or watercourse lies. In any case in which such notice is not published within such fifteen day period, the applicant may provide for the publication of such notice within ten days thereafter.

- 11.5 If an activity authorized by the inland wetland permit also involves an activity or project which requires zoning or subdivision approval, a special zoning permit, variance or special exception, under Section 8-3(g), 8-3c, or 8-26 of the Connecticut General Statutes, the Agency shall file a copy of the decision and report on the application shall be filed with the Town of Trumbull, Planning and Zoning Commission within fifteen days of the date of the decision.
- 11.6 If the Agency denies the permit, or if it grants a permit with terms, conditions, limitations or modifications, the applicant may attempt to modify the proposal to the Agency's satisfaction. The Agency shall determine whether the proposed modification requires the filing of a new application. The rejection of a modified or corrected application by the Agency shall be equivalent to the denial of an application for the purposes of appeal.
- 11.7 Any permit issued by the Agency for the development of land for which an approval is required under Section 8-3, 8-25 or 8-26 of the Connecticut General Statutes shall be valid for five years provided the Agency may establish a specific time period within which any regulated activity shall be conducted. Any permit issued by the Agency for any other activity shall be valid for not less than two years and not more than five years.
- 11.8 If a bond or insurance is required in accordance with Section 12 of these regulations, no permit shall be issued until such bond or insurance is provided.
- 11.9 General Provisions in the issuance of all permits:
- a. The Agency has relied, in whole or in part, on information provided by the applicant and if such information subsequently proves to be false, deceptive, incomplete or inaccurate, the permit may be modified, suspended or revoked.
 - b. All permits issued by the Agency are subject to and do not derogate any present or future rights or powers of the Agency or the Town of Trumbull, and convey no rights in real estate or material nor any exclusive privileges, and are further subject to any and all public and private rights and to any federal, state, and municipal laws or regulations pertinent to the property or activity.
 - c. If the activity authorized by the Agency's permit also involves an activity or a project which requires zoning or subdivision approval, special permit, variance or special exception under Sections 8.3(g), 8-3c, or 8-26 of the Connecticut General Statutes, no work pursuant to the wetland permit may begin until such approval is obtained.

- d. The permittee shall take such necessary steps consistent with the terms and conditions of the permit, to control storm water discharges and to prevent erosion and sedimentation and to otherwise prevent pollution of wetlands and watercourses.

11.10 Any existing permit which has not expired shall become null and void if the plans as submitted and approved are changed prior to or during the construction period.

SECTION 12

BOND AND INSURANCE

- 12.1 Upon approval of the application and prior to issuance of a permit, the applicant may, at the discretion of the Agency, be required to file a bond in such amount and such form, as approved by the Agency. In the event that a bond is required to ensure that the owner or developer complies with the requirements of the permit, including the grading of lots as shown on the plan, the installation of required drainage facilities, erosion control, pond excavation, stream improvements, wetland enhancements, and any other work or installations which the Commission shall require, the applicant shall file with the Commission a bond. Said bond shall consist of a certified check made payable to the Town of Trumbull, and submitted to the Wetlands Agency. Said bond shall be in an amount sufficient to ensure the full completion of the improvements as determined by the Commission. Said bond shall be conditioned that applicant perform, within two years of the date of the approval of the plan or such longer period as the Commission may approve in writing, the approved regulated activities. Said bond shall be filed with the Wetlands Agency before the permitted activities are conducted.
- 12.2 No Building Permit shall be issued to any lot until the Building Official shall have received written notice from the Commission that the bond provided for herein has been filed.

SECTION 12-A

ACTION BY DULY AUTHORIZED AGENT

- 12A.1 The Agency may delegate to its duly authorized agent, the authority to approve or extend an activity that is not located in a wetland or watercourse when such agent finds that the conduct of such activity would result in no greater than a minimal impact on any wetlands or watercourses provided such agent has completed the comprehensive training program developed by the Commissioner of Environmental Protection pursuant to Section 22a-39 of the Connecticut General Statutes. Requests for such approval shall be made on a form provided by the Agency and shall contain the information listed under Section 7.5 of these regulations and any other information the Agency may reasonably require. Notwithstanding, the provisions for receipt and processing applications prescribed in Sections 8, 9 and 11 of these regulations, such agent may approve or extend such an activity at any time.
- 12A.2 Any person receiving such approval from such agent shall, within ten days of the date of such approval, publish, at the applicant's expense, notice of the approval in a newspaper having a general circulation in the town wherein the activity is located or will have an effect. Any person may appeal such decision of such agent to the Agency within fifteen days after the publication date of the notice and the Agency shall consider such appeal at its next regularly scheduled meeting provided such meeting is no earlier than three business days after receipt by such Agency or its agent of such appeal. Any person may appear and be heard at the meeting held by the Agency to consider the subject appeal. The Agency shall, at its discretion, sustain, alter, or reject the decision of its agent or require an application for a permit in accordance with Section 7 of these regulations.

SECTION 13

ENFORCEMENT

- 13.1 The Agency may appoint an agent, or agents, to act in its behalf with the authority to inspect property except INSIDE a private residence, and issue notices of violation or cease and desist orders and carry out other actions or investigations necessary for the enforcement of these regulations.
- 13.2 The Agency or its agent, may make regular inspections, at reasonable hours, of all regulated activities for which permits have been issued under these regulations.
- 13.3 If the Agency or its designated agent finds that any person is conducting or maintaining any activity, facility, or condition which is in violation of the Act or these regulations, the agency or its duly authorized agent may:
- a. issue a written order by certified mail, return receipt requested, to such person conducting such activity or maintaining such facility or condition to immediately cease such activity or to correct such facility or condition. Within ten (10) calendar days of the issuance of such order, the Agency shall hold a hearing to provide the person an opportunity to be heard and show cause why the order should not remain in effect. The Agency shall consider the facts presented at the hearing and within ten (10) days of the completion of the hearing, notify the person by certified mail that the original order remains in effect, that a revised order is in effect, or that the order has been withdrawn. The Agency shall publish notice of its decision in a newspaper having general circulation in the municipality. The original order shall be effective upon issuance and shall remain in effect until the Agency affirms, revises or withdraws the order. The issuance of an order pursuant to this subsection shall not delay or bar an action pursuant to Section 22a-44(b) of the Connecticut General Statutes, as amended.
 - b. suspend or revoke a permit if it finds that the permittee has not complied with the terms, conditions or limitations set forth in the permit or has exceeded the scope of the work as set forth in the application including application plans. Prior to revoking or suspending any permit, the Agency shall issue notice to the permittee, personally or by certified mail, return receipt requested, setting forth the facts or conduct which warrants the intended action. The Agency shall hold a hearing to provide the permittee an opportunity to show that it is in compliance with its permit and any and all requirements for retention of the permit. The permittee shall be notified of the Agency's decision to suspend, revoke, or maintain a permit by certified mail within fifteen (15) days of the date of its decision. The Agency shall publish notice of the suspension or revocation in a newspaper having general circulation in the municipality.

- c. issue a notice of violation to such person conducting such activity or maintaining such facility or condition, stating the nature of the violation, the jurisdiction of the Agency, and prescribing the necessary action and steps to correct the violation including, without limitation, halting work in wetlands or watercourses. The Agency may request that the individual appear at the next regularly scheduled meeting of the Agency to discuss the unauthorized activity, and/or provide a written reply to the notice or file an application for the necessary permit. Failure to carry out the action(s) directed in a notice of violation may result in issuance of the order provided in subdivision 13.3.a or other enforcement proceedings as provided by law.

SECTION 14

AMENDMENTS

- 14.1 These regulations and the Inland Wetlands and Watercourses Map for the Town of Trumbull, Connecticut may be amended, from time to time, by the Agency in accordance with changes in the Connecticut General Statutes or regulations of the State Department of Environmental Protection, or as new information regarding soils and inland wetlands and watercourses becomes available.
- 14.2 An application filed with the Agency which is in conformance with the applicable inland wetlands regulations as of the date of the receipt of such application shall not be required thereafter to comply with any change in inland wetland regulations, including changes to setbacks and buffers, taking effect on or after the date of such receipt and any appeal from the decision of such Agency with respect to such application shall not be dismissed by the Superior Court on the grounds that such a change has taken effect on or after the date of such receipt. The provisions of this section shall not be construed to apply (1) to the establishment, amendment or change of boundaries of inland wetlands or watercourses or (2) to any change in regulations necessary to make such regulations consistent with the provisions of the Act as of the date of such receipt.
- 14.3 These regulations and the Wetlands Map of Trumbull, Connecticut shall be amended in the manner specified in Section 22a-42a of the Connecticut General Statutes, as amended. The Agency shall provide the Commissioner of Environmental Protection with a copy of any proposed regulations and notice of the public hearing to consider any proposed regulations or amendments thereto, except map amendments pursuant to Subsection 14.4 of this section, at least thirty five days before the public hearing on their adoption.
- 14.4 Petitions requesting changes or amendments to the Inland Wetlands and Watercourse Map of Trumbull, Connecticut shall contain at least the following information:
- a. the applicant's name, address and telephone number;
 - b. the address, or location, of the land affected by the petition;
 - c. applicant's interest in the land;
 - d. map(s) showing the geographic location of the land affected by the petition and the existing and the proposed wetland(s) and watercourse(s) boundaries on such land in accurate detail together with the documentation supporting such proposed boundary locations; and

- e. the reasons for the requested action;
- f. the names and addresses of adjacent property owners; and
- g. map(s) showing any proposed development of the land in relation to existing and proposed wetland and watercourse boundaries.

14.5 Any person who submits a petition to amend the Inland Wetlands and Watercourse Map, Trumbull, Connecticut shall bear the burden of proof for all requested map amendments. Such proof may include, but is not limited to, professional interpretation of aerial photography and remote sensing imagery, resource mapping, soils mapping, or other information acceptable to the Agency. If such person is the owner, developer or contract purchaser of the land which is the subject of the petition, or if such person is representing the interests of such an owner, developer or purchaser, in addition to the information required in Subsection 14.4, the petition shall include:

- a. the name, mailing address and telephone number of the owner(s) of such land and owner(s) agent or other representative;
- b. documentation by a soil scientist of the distribution of wetland soils on said land. Such documentation shall at a minimum, include the report of the soil scientist documenting the location of wetland soils on the land and a map of the said land indicating the flag locations set by the soil scientist and defining the boundaries of wetland soil types; and

14.6 Watercourses shall be delineated by a soil scientist, geologist, ecologist or other qualified individual.

14.7 A public hearing shall be held on petitions to amend the Inland Wetlands and Watercourses Map. Notice of the hearing shall be published in a newspaper having substantial circulation in the municipality at least twice at intervals of not less than two days, the first not more than fifteen days nor less than ten days, and the last not less than two days, before such hearing. A copy of such proposed boundary change shall be filed in the office of the Town Clerk Inland Wetland Agency for public inspection at least ten days before such hearing.

14.8 Within ninety (90) days after receipt of a petition for a change in the mapped boundaries of any wetland or watercourse, the Agency shall hold a public hearing⁵ to consider the petition. The Agency shall act upon the changes requested in such petition within sixty (60) days after the close of the hearing.

The petitioner may consent to one or more extensions of the periods specified in this subsection for the holding of the hearing and for action on such petition, provided the total extension of any such period shall not be for longer than the original period as specified in this subsection, or may withdraw such petition. The failure of the Inland Wetlands Agency to act within any time period specified in this subsection, or any extension thereof, shall not be deemed to constitute approval of the petition.

- 14.9 The Agency shall make its decision and state, in writing, the reasons why the change in the Inland Wetlands and Watercourses Map of Trumbull, Connecticut was made.

SECTION 15

APPEALS

- 15.1 Appeal on actions of the Agency shall be made in accordance with the provisions of Section 22a-43 of the Connecticut General Statutes, as amended.
- 15.2 Notice of such appeal shall be served upon the Agency and the Commissioner of Environmental Protection.

SECTION 16

CONFLICT AND SEVERANCE

- 16.1 If there is a conflict among the provisions of these regulations, the provision which imposes the most stringent standards for the use of wetlands and watercourses shall govern. The invalidity of any word, clause, sentence, section, part, subsection, subdivision or provision of these regulations shall not affect the validity of any other part which can be given effect without such invalid part or parts.
- 16.2 If there is a conflict between any provision of these regulations and the provision of the act, the provisions of the act shall govern.

SECTION 17

OTHER PERMITS

- 17.1 Nothing in these regulations shall obviate the requirements for the applicant to obtain any other assents, permits or licenses required by law or regulation by the Town of Trumbull, the State of Connecticut or the Government of the United States including any approval required by the Connecticut Department of Environmental Protection and the U.S. Army Corps of Engineers. Obtaining such assents, permits or licenses is the sole responsibility of the applicant. No person shall conduct any regulated activity within an inland wetland or watercourse for a proposal which requires approvals from any other agency without first having obtained said approvals.

SECTION 18

APPLICATION FEES

- 18.1 Method of Payment. All fees required by these regulations shall be submitted to the Agency by check or money order payable to the Town of Trumbull at the time the application is filed with the Agency.
- 18.2 No application shall be granted or approved by the Agency unless the correct application fee is paid in full or unless a waiver has been granted by the Agency pursuant to Subsection 18.6 of these regulations.
- 18.3 The application fee is not refundable.
- 18.4 Fee Schedule. Application fees shall be based on the following schedule:
- a. Regulated Uses
 - Development of residential, commercial, and industrial land. \$300.00 per acre * Existing
 - Residence on a single lot \$50.00
 - All other uses \$300.00 per acre *
 - b. Permitted and Nonregulated Uses
 - Permitted uses as of right (Subsection 4.1) No Charge
 - Nonregulated uses (Subsection 4.2) No Charge
 - c. Map Amendment Petitions - (Subsection 14.4) \$300.00
 - d. Modification of Existing Permit - Residential Single Lot \$25.00
 - Multiple Lot Residential Development \$25/Lot
 - All Other \$500.00
 - e. In addition, the applicant shall submit any fees as required by the State of Connecticut.
- *(rounded to the nearest 0.1 acre; \$5,000.00 Maximum Fee)
- 18.5 Exemption. Boards, commissions, councils and departments of the Town of Trumbull are exempt from all fee requirements.
- 18.6 Waiver, The applicant may petition the Agency to waive, reduce or allow delayed payment of the fee. Such petitions shall be in writing and shall state fully the facts and circumstances the Agency should consider in its determination under this subsection. The Agency may waive all or part of the application fee if the Agency determines that:

The activity applied for would clearly result in a substantial public benefit to the environment or to the public health and safety and the applicant would reasonably be deterred from initiating the activity solely or primarily as a result of the amount of the application fee, or

The Agency shall state upon its record the basis for all actions under this subsection.

SECTION 19

RECORDS RETENTION AND DISPOSITION

- 19.1 The Agency and the Town Clerk for the Town of Trumbull shall retain complete administrative records of Agency actions and dispose of such records in accordance with the retention/disposition schedules set forth in Subsection 19.2.
- 19.2 The public records administrator of the Connecticut State Library established the following new records retention/disposition schedules for municipal Inland Wetlands Agencies effective April 24, 1989:

<u>RECORD TITLE</u>	<u>MINIMUM RETENTION REQUIRED</u>	
	<u>IN AGENCY</u>	<u>TOWN CLERK</u>
APPLICATIONS (INCLUDING SUPPORTING MATERIALS)	10 YEARS	-
DECISION LETTERS	10 YEARS	PERMANENT
APPROVED SITE PLANS	10 YEARS	-
LEGAL NOTICES	10 YEARS	PERMANENT
STAFF AND PUBLIC WRITTEN TESTIMONY (HEARING RECORDS)	10 YEARS	-
MINUTES OF MEETING & PUBLIC HEARINGS	15 YEARS	PERMANENT
TAPES, AUDIO - INLAND WETLAND MATTERS	4 YEARS	-
NOTICES OF VIOLATION & ORDERS	10 YEARS	-
TEXT OF CHANGES ADOPTED IN REGULATIONS	CONTINUOUS UPDATE/ PERMANENT	-
GENERAL CORRESPONDENCE ISSUED OR RECEIVED	5 YEARS	

SECTION 20

EFFECTIVE DATE OF REGULATIONS

- 20.1 These regulations including the Inland Wetlands and Watercourses Map, application forms, fee schedule and amendments thereto, shall become effective upon filing in the Office of the Town Clerk and publication of a notice of such action in a newspaper having general circulation in the Town of Trumbull.

CONSERVATION EASEMENT

The intent of this Conservation Easement is to retain the land and water areas predominantly in a natural, scenic or open condition or an agriculture, farming, forest, open space or wetland condition, unless otherwise approved by the Trumbull Inland Wetlands and Watercourses Commission.

KNOW THAT _____ and _____,
of the Town of _____, County of _____ and State of
Connecticut, (whether one or more hereinafter referred to as GRANTOR) does hereby give and
grant a perpetual conservation easement to the Town of Trumbull (hereinafter referred to as
GRANTEE) precluding the GRANTOR, his heirs, successors and assigns, from excavating,
filling, grading, removing vegetation from or constructing buildings or other improvements or
performing regulated activities as specified in Connecticut General Statutes, Sections 22a-42 et
seq, and the Inland Wetland and Watercourses regulations of the Town of Trumbull on the land
described below without the approval of the Trumbull Inland Wetlands and Watercourses
Commission; provided, however, that this shall not preclude the GRANTOR, his heirs,
successors and assigns, from maintaining the conservation easement area in a woodland or
meadow condition of high grass and shrub growth (not lawn) by mowing not more than twice in
one year, pruning of dead or diseased vegetation, removing dead or diseased vegetation,
removing dead or diseased vegetation or picking fruit, berries or vegetation; the land subject to
this easement consists of these certain areas marked on map entitled
" _____ ", dated _____,
prepared by _____ and to be filed for record in the office of the
Trumbull Town Clerk, said Conservation Easement being more particularly bounded and
described as follows:

TO HAVE AND TO HOLD the foregoing easement unto the Town of Trumbull and its successors and assigns forever, to its own proper use and benefit.

No additions, deletions or modifications shall be made to this document without the approval of the Inland Wetlands and Watercourses Commission.

IN WITNESS WHEREOF, _____ has hereunto caused these presents to be signed, this _____ day of _____, A.D. 19____.

In the presence of:

STATE OF CONNECTICUT)

) ss. _____, 19____

COUNTY OF)

Personally appeared _____ and _____
signer(s) and sealer(s) of the foregoing instrument and acknowledged the same to be his/their
free act and deed, before me.

Notary Public/Commissioner of Superior Court

CONSERVATION EASEMENT

The intent of this Conservation Easement is to retain the land and water areas predominantly in a natural, scenic or open condition or an agriculture, farming, forest, open space or wetland condition, unless otherwise approved by the Trumbull Inland Wetlands and Watercourses Commission.

KNOW THAT _____, a Connecticut corporation having its principal place of business in the Town of _____, Connecticut, acting herein by _____, its _____, duly authorized (hereinafter referred to as GRANTOR) does hereby give and grant a perpetual conservation easement to the Town of Trumbull (hereinafter referred to as GRANTEE) precluding the Grantor, its successors and assigns, from excavating, filling, grading, removing vegetation from or constructing buildings or other improvements or performing regulated activities as specified in Connecticut General Statutes, Sections 22a-42 et seq, and the Inland Wetland and Watercourses regulations of the Town of Trumbull on the land described below without the approval of the Trumbull Inland Wetlands and Watercourses Commission; provided, however, that this shall not preclude the GRANTOR, its successors and assigns, from maintaining the conservation easement area in a woodland or meadow condition of high grass and shrub growth (not lawn) by mowing not more than twice in one year, pruning of dead or diseased vegetation, removing dead or diseased vegetation or picking fruit, berries or vegetation; the land subject to this easement consists of these certain areas marked on map entitled " _____ ", dated _____, prepared by _____ and to be filed for record in the office of the Trumbull Town Clerk, said Conservation Easement being more particularly bounded and described as follows:

TO HAVE AND TO HOLD the foregoing easement unto the Town of Trumbull and its successors and assigns forever, to its own proper use and benefit.

No additions, deletions or modifications shall be made to this document without the approval of the Inland Wetlands and Watercourses Commission.

IN WITNESS WHEREOF, _____ has hereunto caused these presents to be signed, and its seal affixed this _____ day of _____, A.D. 19_____.
